

Mastering Copperplate Calligraphy A Step-by-Step Manual

ELEANOR WINTERS

S

The 'S' in Figures 1, 2, and 3 are variations on the standard 'S' which is the shape in Figure 4 and the result is a single stroke.

Figure 1 is correctly at the distance of the diagonal in Figure 2, so that the side and cross strokes crossing the uprights.

The position of a loop at the front then back in number 3 makes the uprights more correct than the others. This is also a one-stroke letter.

Figure 4, like the first in Figure 1, is a loop at the downward base of the stem.

O

Each of these 'O's is made in a single stroke. Figure 2 is just as the letter would be done in Fig. 2 (p. 145) and the 'C' in Figure 3 (p. 147).

Number 1 in Figure 1 and 4 can be obtained by using following's second loop like in Figure 1 because the stem enters in a slight loop.

Figure 3 begins with the loop at number of the standard 'O'. This variation might be considered a better measure.

P

Many of the variations on the 'P' are the same as those of the 'S'. The one on the stem that you address.

The first number of Figure 2 comes together with a loop coming from the right of the curve at the stem through, there isn't the sufficient space for the second stroke.
