understand Creation Each content area is thoroughly explored giving students a good foundation in each discipline Semester
1 Math and Physics Numbers surround us Just try to make it through a day without using any It s impossible telephone
numbers calendars volume settings shoe sizes speed limits weights street numbers microwave timers TV channels and the
list goes on and on The many advancements and branches of mathematics were developed through the centuries as people
encountered problems and relied upon math to solve them It s amazing how ten simple digits can be used in an endless
number of ways to benefit man The development of these ten digits and their many uses is the fascinating story in *Exploring
the World of Mathematics* Physics is a branch of science that many people consider to be too complicated to understand John
Hudson Tiner puts this myth to rest as he explains the fascinating world of physics in a way that students can comprehend
Did you know that a feather and a lump of lead will fall at the same rate in a vacuum Learn about the history of physics from
Aristotle to Galileo to Isaac Newton to the latest advances Discover how the laws of motion and gravity affect everything
from the normal activities of everyday life to launching rockets into space Learn about the effects of inertia first hand during
fun and informative experiments *Exploring the World of Physics* is a great tool for student who want to have a deeper
understanding of the important and interesting ways that physics affects our lives Semester 2 Biology and Chemistry The
field of biology focuses on living things from the smallest microscopic protozoa to the largest mammal In this book you will
read and explore the life of plants insects spiders and other arachnids life in water reptiles birds and mammals highlighting
God s amazing creation You will learn about biological classification how seeds spread around the world long term storage of
energy how biologists learned how the stomach digested food the plant that gave George de Mestral the idea of Velcro and so
much more For most of history biologists used the visible appearance of plants or animals to classify them They grouped
plants or animals with similar looking features into families Starting in the 1990 s biologists have extracted DNA and RNA
from cells as a guide to how plants or animals should be grouped Like visual structures these reveal the underlying design of
creation *Exploring the World of Biology* is a fascinating look at life from the smallest proteins and spores to the complex life
systems of humans and animals Chemistry is an amazing branch of science that affects us every day yet few people realize it
or even give it much thought Without chemistry there would be nothing made of plastic there would be no rubber tires no tin
cans no televisions no microwave ovens or something as simple as wax paper This book presents an exciting and intriguing

tour through the realm of chemistry as each chapter unfolds with facts and stories about the discoveries of discoverers Find out why pure gold is not used for jewelry or coins Join Humphry Davy as he made many chemical discoveries and learn how they shortened his life See how people in the 1870s could jump over the top of the Washington Monument Exploring the World of Chemistry brings science to life and is a wonderful learning tool with many illustrations and biographical information Chapter Resource 13 Theory/Evolution Biology Holt Rinehart & Winston,Holt, Rinehart and Winston Staff,2004 Secondary Teaching Methods Kenneth T.
