Gunia, 2019-02-08 We use money to solve our everyday problems and it generally works well Despite its economic benefits however money has a psychological downside it trains us to think about negotiations narrowly leading us to negotiate badly Suggesting that we need a non monetary mindset to negotiate better The Bartering Mindset shows us how to look outside the monetary economy to the bartering economies of the past where people traded what they had for what they needed The book argues that because of the economic difficulties associated with bartering barterers had to use a more sophisticated form of negotiation a strategic approach that can make us master negotiators today This book immerses readers in the assumptions made by barterers collectively referred to as the bartering mindset and then demonstrates how to apply this mindset to

modern monetary negotiations The Bartering Mindset concludes that our individual organizational and social problems fester for a predictable reason we apply a monetary mindset to our negotiations leading to suboptimal thinking counterproductive behaviors and disappointing outcomes By offering the bartering mindset as an alternative this book will help people negotiate better and thrive
