Destruction of a Planet Gyeorgos Ceres Hatonn,1991-12 Murder by Injection Eustace Clarence Mullins,2016-04-21 The present work the result of some forty years of investigative research is a logical progression from my previous books the expose of the international control of monetary issue and banking practices in the United States a later work revealing the secret network of organizations through which these alien forces wield political power the secret committees foundations and political parties through which their hidden plans are implemented and now to the most vital issue of all the manner in which these depredations affect the daily lives and health of American citizens Despite the great power of the hidden rulers I found

that only one group has the power to issue life or death sentences to any American our nation s physicians I discovered that these physicians despite their great power were themselves subjected to very strict controls over every aspect of their professional lives These controls surprisingly enough were not wielded by any state or federal agency although almost every other aspect of American life is now under the absolute control of the bureaucracy The physicians have their own autocracy a private trade association the American Medical Association This group which is headquartered in Chicago Illinois had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books I knew that they had already looted America reduced its military power to a dangerously low level and imposed bureaucratic controls on every American I now discovered that their conspiracies also directly affected the health of every American This conspiracy has resulted in a documented decline in the health of our citizens We now rank far down the list of civilized nations in infant mortality and other significant medical statistics I was able to document the shocking record of these cold blooded tycoons who not only plan and carry out famines economic depressions revolutions and wars but who also find their greatest profits in their manipulations of our medical care The cynicism and malice of these conspirators is something beyond the imagination of most Americans They deliberately mulct our people of millions of dollars each year through charitable organizations and then use these same organizations as key groups to bolster their Medical Monopoly Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care as they ruthlessly crush any competitor who challenges their profits As in other aspects of their behavioural control over the American people their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues The proof of this operation may be the most disturbing revelation of my work **The Prosecutor** ,1971 **Journal of Criminal Psychopathology** ,1940 **The Politics of Demonology** Jon Oplinger,1990 Ch 10 pp 204 253 The Holocaust approaches the Holocaust as an extreme case of mass production of deviance similar to previous social manifestations of state production of enemies and conspiracies e g the McCarthy era the Stalinist Great Purge Focuses on Hitler s obsession with a Jewish conspiracy his concern with the necessity for a demonized inner enemy the significance of the Kristallnacht and the crusade for racial purity Discusses Nazi ideology that justified the Final Solution and the organizational structure of the bureaucratization of violence through the euthanasia policy the organization of the SS and Einsatzgruppen and the establishment of concentration camps **The Indian Police Journal** ,1971 **The Poisonous Pen of Agatha Christie** Michael C. Gerald,1993-06 Poisoning occurs in over half of Agatha Christie s many novels and stories In fact she used a larger number and broader selection of poisons and medicines for a wider variety of purposes with greater frequency ingenuity and scientific accuracy than any other detective fiction writer Yet very little has been written on the use of drugs poisons and chemicals in Christie s fiction The Poisonous Pen of Agatha Christie entertainingly and

authoritatively fills this gap Michael Gerald explores the use of poisons and drugs in Christie s fiction not only to commit murder and suicide but also to incapacitate a victim alter behavior treat disease or support addiction He also analyzes her views as expressed in her fiction and autobiography on drug addiction the health professions the value of medicines and scientific discoveries Especially valuable is Gerald s exhaustive listing of all drugs poisons and chemicals mentioned in Christie s novels and stories with references to the work s in which each appears and the ways in which each is used Other tables list all the novels and short stories and the chemicals that are used in each Throughout the properties of all drugs are clearly explained so that the reader needs no special scientific or medical knowledge The Poisonous Pen of Agatha Christie illuminates the fictional uses Christie made of her real life experiences as a hospital drug dispenser and as a provider of nursing care It will be of interest to fans and scholars alike
