**EXPANDING DEMOCRACY
CHANGES POLITICS****What led to the formation of the
Democratic-Republican Party?**

Andrew Jackson, a hero from the War of 1812, ran for president in 1824 against John Quincy Adams. Neither candidate received a majority of electoral votes and the House of Representatives had to decide the winner. Speaker of the House Henry Clay disliked Jackson. He used his influence to help Adams win the election. Jackson's followers accused Adams of stealing the election. Jackson's followers formed their own party—the **Democratic-Republican Party**. For the next four years, the new party attacked Adams's policies.

During Adams's presidency, most states had eased voting requirements a

citizen had to fulfill to be able to vote. As a result, the voting population greatly increased. Fewer states had property qualifications for voting. This meant that many more individuals could vote.

The 1828 presidential election signaled how much the nation's voter rolls had grown. In the election of 1824, about 350,000 white males voted for the presidency. In 1828 more than three times that number voted. However, certain groups still lacked political power. Free blacks and women did not enjoy the freedoms and privileges of white males.
