

Principles of Agroecosystem Analysis (Conway, 1986)

- It isn't necessary to know everything about an agroecosystem in order to produce a realistic and useful analysis ('optimal ignorance').
- Understanding the behavior and important properties of an agroecosystem requires knowledge of only a few key functional relationships.
- Producing significant improvements in the performance of an agroecosystem requires changes in only a few key management decisions.
- Identification and understanding of these key relationships and decisions requires a limited number of key questions are defined and answered.
