The Automotive Industry and European Integration A. J. Jacobs, 2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration high wages and the demise of GM and Ford led to plant closings in Belgium. Next it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

Racism and Racial Surveillance Sheila Khan, Nazir Ahmed Can, Helena Machado, 2021-09-28 Based on the premise that the project of Western Modernity is a structuring element of our societies *Racism and Racial Surveillance* explores in detail its legacies of coloniality and racialization that interfere in a subtle and perverse way in the current social cultural and political systems. Drawing on multi case studies the book then proffers key concepts and historical background that will be of interest to researchers students and professionals in a broad range of areas of social sciences and humanities research including fields such as criminology and policing science and technology studies arts studies literary studies race and ethnic studies and finally memory studies.
