**Infants, Toddlers, and Caregivers** Janet Gonzalez-Mena, Dianne Widmeyer Eyer, 2020-02 Respect for infant toddler development and mindful caregiving practices for this age group serve as the cornerstones for this textbook In 1980 when this textbook was first published infants and toddlers were scarcely mentioned in early childhood education The existing curriculum focused on preschool children 3 4 and 5 year olds Society however was changing and more children were entering out of home care at a younger age and preschool teachers were experiencing new challenges Traditional preschool curriculum with circle time and group activities did not fit the needs of 2 year olds and younger The authors of this book recognized that more specific curriculum was

needed and worked together to address these new and challenging issues in early care and education. The major theme of this textbook, the idea of respectful, responsive, and reciprocal adult-infant/toddler interactions, has been the same with each edition. The philosophy of Magda Gerber and the theory of Emmi Pikler provide the textbook with a unique approach while outlining well-established practices designed to promote infant and toddler well-being. Magda Gerber, a Los Angeles infant expert, came from Hungary. Her friend and colleague, Dr. Emmi Pikler, a theorist and researcher also from Hungary, had established group care for infants and toddlers after World War II.

**Relationship-Based Care for Infants and Toddlers**  
Susan L. Recchia, Minsun Shin, Eleni Loizou, 2023. Learn how to create and nurture communities of care for diverse children, families, and practitioners through responsive practice. In this text, the social and emotional worlds of babies and toddlers, their peers, and their caregivers come to life in the everyday moments of infant/toddler care and education. The authors show infants and toddlers as active, agentic, and intentional social partners from the start of life, highlighting their unique capacities for social engagement with both adults and peers. Interwoven within each chapter's narrative are insights culled from extensive observations, teacher interviews, and video analyses. Part I emphasizes play, peer friendships, and humor as essential elements of infant learning, illustrated throughout with anecdotes of praxis in early care and education settings. Building on these aspects of babies' ways of being in group care, Part II examines the complex roles of infant/toddler professionals and the critical importance of supportive and caring environments. Readers will explore the elements needed for in-depth and specialized professional preparation, including overarching principles of relationship-based practice.

**Book Features**  
Illuminates particular and understudied ways that infants and toddlers actively contribute to their own social learning and development. Shares how teachers learn to engage with and nurture infants and toddlers' social capacities and experiences within child care settings. Uses anecdotes and vignettes from the authors' research and practice with infants, toddlers, and caregivers to bring their experiences to life. Discusses themes that are important and unique for infancy and toddlerhood, such as play, friendships, humor, and professional love. Presents a unique set of chapters that reveal infants and toddlers' perspectives while also considering the caregiver's actions within a responsive care framework.

**Introduction to Early Childhood Education**  
Eva L. Essa, Melissa M. Burnham, 2019-01-09. Introduction to Early Childhood Education provides current and future educators with a highly readable, comprehensive overview of the field. The underlying philosophy of the book is that early childhood educators' most important task is to provide a program that is sensitive to and supports the development of young children. Author Eva L. Essa and new co-author Melissa Burnham provide valuable insight by strategically dividing the book into six sections that answer the What, Who, Why, Where, and How of early childhood education. Utilizing both NAEYC (National Association for the Education of Young Children) and DAP (Developmentally Appropriate Practice) standards, this supportive text provides readers with the skills, theories, and best practices needed to succeed and thrive as early childhood educators.
