Child Soldier Victims of Genocidal Forcible Transfer Sonja C. Grover,2012-01-05 This book provides an original legal analysis of child soldiers recruited into armed groups or forces committing mass atrocities and or genocide as the victims of the genocidal forcible transfer of children Legal argument is made regarding the lack of criminal culpability of such child soldier recruits for conflict related international crimes and the inapplicability of currently recommended judicial and non judicial accountability mechanisms in such cases The book challenges various anthropological accounts of child soldiers alleged tactical agency to resist committing atrocity as members of armed groups or forces committing mass atrocity and or genocide Also provided are original interpretations of relevant international law including an interpretation of the Rome Statute age based exclusion from prosecution of persons who were under 18 at the time of perpetrating the crime as substantive law setting an international standard for the humane treatment of child soldiers **I & T Shop Service** ,1982

Mergent International Manual ,2001 **The Northern Logger and Timber Processor** ,1995 **The Publishers' Trade List Annual** ,1985 *Is Medical Ethics in Armed Conflict Identical to Medical Ethics in Times of Peace?* Janet Kelly,2014-09-18 This book challenges the World Medical Association s WMA International Code of Ethics statement in 2004 which declared that medical ethics in armed conflict is identical to medical ethics in times of peace This is achieved by examining the professional ethical and legal conflicts in British Military healthcare practice that occur in three distinct military environments These are i the battlefield ii the operational environment and iii the non operational environment As this conflict is exacerbated by the need to achieve Operational Effectiveness this book also explores the dual loyalty conflict that Military Health Care Professionals MHCPs encounter between following military orders and professional codes of practice The method used to challenge the WMA s statement and explore these conflicts is the use of real life problem solving vignettes which mirror actual ethical and professional conflicts and dilemmas that may occur in the three

environments The areas of law analysed similarly reflect the difficulties that MHCPs face when caring for the sick and wounded in violent locations when under attack In particular the book questions whether it is right for a MHCP to owe their patients a duty of care in hostile environments This leads on to questioning if any MHCP could be protected by combat immunity where no duty of care is owed to fellow soldiers in the battlefield The book also questions whether the standard of care should be variable in hostile environments It also explores the dual loyalty conflict of a wounded senior officer refusing treatment from a junior officer In addition it examines the difficulties of a doctor maintaining patient confidentiality when a soldier refuses treatment for a psychological injury but wishes to redeploy to the battlefield The book successfully challenges the WMA s statement It also concludes by suggesting that neither a military focused approach nor a professional healthcare focused approach towards military healthcare is the best way to solve the dual loyalty conflict Livestock Farming ,1982
