Mitran and G. Păun in the series Studies in Fuzziness and Soft Computing 148 which was aimed at serving as an overall course aid and self study material especially for PhD students in formal language theory and applications Actually the volume emerged in such a context it contains the core information from many of the lectures delivered to the students of the International PhD School in Formal Languages and Applications organized since 2002 by the Research Group on Mathematical Linguistics from Rovira i Virgili University Tarragona Spain
