**Rebooting India** Nandan Nilekani,Viral Shah,2016-11-24 India is sitting on a demographic dividend expected to become  
the world s youngest country by 2020 with 64 per cent of its population roughly 800 million people of working age But our  
country cannot become a global powerhouse unless we resolve the contradictions and bridge the gaps that distort our society  
According to Nandan Nilekani and Viral Shah the only way to do this is by using technology to radically reimagine  
government itself Rebooting India identifies a dozen initiatives where a series of citizen friendly high tech public institutions  
can deliver low cost solutions to India s grand challenges Based on the learnings from building Aadhaar the proposed  
initiatives would save the government a minimum of Rs 1 00 000 crore annually about 1 per cent of India s GDP These  
visionary cutting edge ideas the authors hope will enable each one of India s 1 2 billion citizens to realize their aspirations
