Life After Residency Melissa T. Berhow, William W. Feaster, John G. Brock-Utne, MD, PhD, FFA(SA), 2009-04-20 Life After Residency A Career Planning Guide is an insightful step by step guide to achieving a successful and fulfilling career in medicine As professors at Stanford University Medical Center Drs Melissa Berhow William Feaster and John Brock Utne began running seminars to advise their residents not only on creating a curriculum vitae and landing a great job but also on how to manage student loan payments

and avoid pitfalls in the life of a physician The immense success and ensuing demand for more seminars eventually gave rise to Life After Residency a book which continues the seminar discussions in greater depth and magnitude while maintaining a conversational writing style Key topics covered include preparing for a job interview evaluating job offers and negotiating contracts obtaining and maintaining the proper State license applying for membership onto Medical Staffs obtaining malpractice insurance buying a house and investing for eventual retirement and pursuing non medical career options Loaded with sage advice and practical wisdom Life After Residency is an invaluable asset to every resident during the transition from residency to life thereafter

From Residency to Retirement Terry Mizrahi,2021-04-16 From Residency to Retirement tells the stories of twenty American doctors over the last half century which saw a period of continuous turbulent and transformative changes to the U S health care system The cohort s experiences are reflective of the generation of physicians who came of age as presidents Carter and Reagan began to focus on costs and benefits of health services Mizrahi observed and interviewed these physicians in six timeframes ending in 2016 Beginning with medical school in the mid 1970s these physicians reveal the myriad fluctuations and uncertainties in their professional practice working conditions collegial relationships and patient interactions In their own words they provide a view from the front lines both in academic and community settings They disclose the satisfactions and strains in coping with macro policies enacted by government and insurance companies over their career trajectory They describe their residency in internal medicine in a large southern urban medical center as a siege mentality which lessened as they began their careers in Getting Rid of Patients the title of Mizrahi s first book 1986 As these doctors moved on in their professional lives more of their experiences were discussed in terms of dissatisfaction with financial remuneration emotional gratification and intellectual fulfillment Such moments of career frustration however were also interspersed with moments of satisfaction at different stages of their medical careers Particularly revealing was whether they were optimistic about the future at each stage of their career and whether they would recommend a medical career to their children Mizrahi s subjects also divulge their private feelings of disillusionment and fear of failure given the malpractice epidemic and lawsuits threatened or actually brought against so many doctors Mizrahi s work covering almost fifty years provides rarely viewed insights into the lives of physicians over a professional life span
