**Intelligent Systems** Siba K. Udgata, Srinivas Sethi, Xiao-Zhi Gao, 2022-05-03 This book features best selected research papers presented at the International Conference on Machine Learning Internet of Things and Big Data ICMIB 2021 held at Indira Gandhi Institute of Technology Sarang India during December 2021 It comprises high quality research work by academicians and industrial experts in the field of machine learning mobile computing natural language processing fuzzy computing green computing human computer interaction information retrieval intelligent control data mining and knowledge discovery evolutionary computing IoT and applications in smart environments smart health smart city wireless networks big data cloud computing business intelligence Internet security pattern recognition predictive analytics applications in healthcare sensor networks and social sensing and statistical analysis of search techniques *Biological Network Analysis* Pietro Hiram Guzzi, Swarup Roy, 2020-05-12 Biological Network Analysis Trends Approaches Graph Theory and Algorithms considers three major biological networks including Gene Regulatory Networks GRN Protein Protein Interaction Networks PPIN and Human Brain Connectomes The book s authors discuss various graph theoretic and data analytics approaches used to analyze these networks with respect to available tools technologies standards algorithms and databases for generating representing and analyzing graphical data As a wide variety of algorithms have been developed to analyze and compare networks this book is a timely resource **Computational Intelligence Methods for Bioinformatics and Biostatistics** Paolo Cazzaniga, Daniela Besozzi, Ivan Merelli, Luca Manzoni, 2020-12-09 This book constitutes revised selected papers from the 16th International Meeting on Computational Intelligence Methods for Bioinformatics and Biostatistics CIBB 2019 which was held in Bergamo Italy during September 4 6 2019 The 28 full papers presented in this volume were carefully reviewed and selected from 55 submissions The papers are grouped in topical sections as follows Computational Intelligence Methods for Bioinformatics and Biostatistics Algebraic and Computational Methods for the Study of RNA Behaviour Intelligence methods for molecular characterization medicine Machine Learning in Healthcare Informatics and Medical Biology Modeling and Simulation Methods for Computational Biology and Systems Medicine **The Image-Interface** Everardo Reyes-Garcia, 2017-11-29 Digital practices are shaped by graphical representations that appear on the computer screen which is the principal surface for designing visualizing and interacting with digital information Before any digital image or graphical interface is rendered on the screen there is a series of layers that affect its visual properties To discover such processes it is necessary to investigate software applications graphical user interfaces programming languages and code algorithms data structures and data types in their relationship with graphical outcomes and design possibilities This book studies interfaces as images and images as interfaces It offers a comprehensible framework to study graphical representations of visual information It explores the relationship between visual information and its graphical supports taking into account contributions from fields of visual computing Graphical supports are considered as material but also as

formal aspects underlying the representation of digital images on the digital screen

**Space Operations: Inspiring Humankind's Future** Helene Pasquier, Craig A. Cruzen, Michael Schmidhuber, Young H. Lee, 2019-05-03 This book includes a selection of 30 reviewed and enhanced manuscripts published during the 15th SpaceOps Conference held in May 2018 in Marseille France The selection was driven by their quality and relevance to the space operations community The papers represent a cross section of three main subject areas Mission Management management tasks for designing preparing and operating a particular mission Spacecraft Operations preparation and implementation of all activities to operate a space vehicle crewed and uncrewed under all conditions Ground Operations preparation qualification and operations of a mission dedicated ground segment and appropriate infrastructure including antennas control centers and communication means and interfaces This book promotes the SpaceOps Committee's mission to foster the technical interchange on all aspects of space mission operations and ground data systems while promoting and maintaining an international community of space operations experts

**JanusGraph Essentials** Richard Johnson, 2025-05-30 JanusGraph Essentials JanusGraph Essentials is a definitive in depth guide to mastering the design implementation and operation of distributed graph databases using JanusGraph This book peels back the layered architecture of JanusGraph examining its core principles storage abstractions indexing integrations and internal mechanisms that drive both scalability and reliability Readers will gain a robust understanding of distributed transaction management schema creation and evolution and the intricacies of maintaining data integrity at scale all illuminated through practical explanations and system deep dives With a strong emphasis on real world applications the book covers advanced data modeling for property graphs efficient Gremlin traversals and high performance query patterns essential for analytics recommendations and knowledge graph deployments It navigates the complexities of deploying JanusGraph in production addressing high availability load balancing failure recovery and zero downtime operations while providing practical runbooks and DevOps automation strategies for streamlined infrastructure management Detailed case studies backend integration guides for Cassandra HBase Elasticsearch and Solr and comprehensive migration playbooks empower practitioners to build and operate mission critical graph solutions Security compliance and data governance are explored alongside emerging trends in graph analytics algorithms ETL and visualization Readers will find authoritative guidance on authentication encryption multi tenancy and regulatory compliance as well as insights into the vibrant JanusGraph ecosystem community governance and cutting edge research directions Whether you are an architect engineer or data scientist JanusGraph Essentials offers the knowledge and strategies to unlock the full power of distributed graph technology
