**Dynamic Light and Shade** Burne Hogarth, 1911-09-01 Mastery of light and shade rendered with accuracy and expressive power is the key to three dimensional form in drawing and painting Here is the first book on this essential subject the product of years of study by one of the world s great teachers of drawing and an artist of international renown Burne Hogarth Hogarth begins with the simplest kind of light and shade showing how a dark silhouette on white paper can communicate form and space He then shows how the silhouette is transformed into three dimensions with the addition of minimal light the highlight Following these instructory chapters Hogarth devotes a separate chapter to each of the given basic categories of light and shade single source light double source light flat diffused light moonlight and sculptural light In these chapters Hogarth illustrates the effects of these different kinds of light on a variety of subjects and examines both natural and artificial light sources Moving on to more complex lighting effects Hogarth explains spatial light how light and shade can create a sense of near and far environmental light the effects of weather time of day and the changing of seasons textural light how light reveals the surface qualities of forms that range from rough stone to silk and satin draperies transparent light the effects passing through transparent materials like glass and water and translucent substances like moving water or sailcloth fragmentation light the disrupted light we see in such subjects as fire rain and flying snow radiant light the intense light we see when we look into the light source itself which may range from the sun to a candle flame and finally the various kinds of expressive light invented by the artist such as the symbolic and mystic light of religious art or the patterns of light and shade that convey a mood or a psychological state Burne Hogarth illustrates every effect of light and shade with brilliant drawings in pencil charcoal carbon pen and ink and brush and ink encouraging the reader to experiment with diverse drawing media *Dynamic Light and Shade* is an essential volume for everyone who draws and paints *Dynamic Light and Shade* dynamic light and, 2015-01-24 **Arts & Decoration** , 1920 **J. Light as Experience and Imagination from Medieval to Modern Times David S. Herrstrom, 2022-11-21 In *Light as Experience and Imagination from Medieval to Modern Times* David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual s relationship with light rather than the investigation of light s essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light s character No individual experience of light being truer than any other *Musical Observer* , 1922 **The History of Orchestration** Adam Carse, 1925 *The Appreciation of Music Series, Vol. IV: Music as a Humanity, and Other Essays* Daniel Gregory Mason, 1921 **50 selected studies** Johann Baptist Cramer, 1875 **The Appreciation of Music Series,**
