Identify Misplaced and Dangling Modifiers #1

A **modifier** is a word or group of words that describes another word or phrase in the same sentence. A **misplaced modifier** appears to describe the wrong part of the sentence, usually because it's too far away from the word or phrase it should be modifying.

Example: Peter donated some of his old books to the library that he no longer needed.

→ This wrongly suggests that Peter no longer needed the library.

A **dangling modifier** appears to describe the wrong part of the sentence because the word or phrase it should be modifying is missing from the sentence altogether.

Example: Attempting to relax, the legging cushions made it difficult to sit still.

→ This wrongly suggests that the legging cushions were attempting to relax.
