A decorative graphic element consisting of a light blue horizontal bar with a rounded right end, and a red-to-white gradient semi-circle overlapping the right side of the bar.

## **Cognitive Therapy Basic Principles And Applications:**

*Cognitive Therapy* Robert L. Leahy, 1996-12-01 Today under pressure from managed care companies as well as from patients who are demanding briefer and more focused treatments therapists are creatively combining cognitive and psychodynamic approaches and obtaining unprecedented therapeutic results In this volume Robert Leahy describes Aaron Beck's seminal model of depression anxiety anger and relationship conflict and shows how each of these problems is handled by the cognitive therapist in the context of an interactive therapeutic relationship Leahy demonstrates how uncovering resistance to change and using the therapeutic relationship enhances recovery and promotes rapid change With concrete examples he shows how to implement all of the basic cognitive techniques including activity scheduling graded task assignments exposure hierarchies response prevention challenging underlying schemas thought monitoring Drawing from cognitive and dynamic orientations and taking into account the complexity of countertransference and resistance this book is for today's clinicians who rather than being wedded to a specific approach are committed to a quick and successful therapeutic outcome A Jason Aronson Book

**Theoretical Models of Counseling and Psychotherapy** Kevin A. Fall, Janice Miner Holden, Andre Marquis, 2011-01-19 This text provides a comprehensive overview of a variety of major counseling theories and focuses on the integration of different theoretical models Appropriate for advanced undergraduates and graduate students it offers a detailed description of the philosophical basis for each theory along with historical context and a biography of the founder Each chapter follows a similar format and explores the main features of the theory including its approach to and ideas on personality development human nature the role of environment the change process in therapy and contributions and limitations to the mental health field Theory specific information on diagnosis psychopharmacology multicultural issues spirituality and gender issues is also discussed These features will provide students with a deeper and more complete understanding of counseling theory than is available in any single resource and allow them to easily bridge classroom study to their future practice This second edition of the text has been completely updated and includes more case examples as well as a new chapter on Constructivist approaches An online instructor's manual with student resources is available and offers material to enhance the pedagogical features of the text
