Wilson,2011-05-19 The purpose of this book is to open the eyes of the global community to the challenges faced by progressive Muslims These individuals must overcome their inherited traditions in order to advance their faith To be able to understand this struggle the origins and maintenance of these beliefs will be explored The subjects of womens rights and freedom of religion shall be the main focus of this study In order to scrutinize the situation the United Nations Universal Declaration of Human Rights shall be utilized as a comparative aspect to Sharia law Following the arguments on these issues progressive ideas of modern Muslim thinkers will be considered as a guide on how to bring human rights to a globally accepted place within all faiths      **Voices of Islam** Virginia G. Blakemore-Henry,Vincent J. Cornell,Omid Safi,2006-12-30 Despite frequent and extensive publications on Islam very few Americans indeed very few non Muslims truly understand the faith or the more than one billion adherents who live it This set presents the diversity and richness of Islam filling in the blanks and expanding our knowledge and understanding Portraying Muslims in all their humanity and diversity balances the images that have bombarded society and presents the reader with a fuller and more accurate picture of the Islamic faith and what it means to live as a Muslim in Muslim communities and as part of a broader tapestry of pluralism in the nations of the world What does it mean to share Muslim concerns To experience Muslim spirituality What is the difference between Sunni and Shiite sects Why do Muslims pray so frequently What is the reality of Muslim marriage and gender relations What is the meaning of jihad and martyrdom to a practicing Muslim What role do the arts and humanities play in modern Muslim life How are Islamic children raised These questions and others are answered in these volumes which bring together Muslim voices from around the world including men and women scholars and laypersons fundamentalists and progressives and others from various cultural political and Islamic backgrounds Personal experiences and poetry are included to illustrate the many different expressions of Islam

Practical Islam, the Religion of Peace and Its Basic Tenets Sinne Lebbe Mohamed,1967      *The Rise of Science in Islam and the West* John W. Livingston,2017-12-14 This is a study of science in Muslim society from its rise in the 8th century to the efforts of 19th century Muslim thinkers and reformers to regain the lost ethos that had given birth to the rich scientific heritage of earlier Muslim civilization The volume is organized in four parts the rise of science in Muslim society in its historical setting of political and intellectual expansion the Muslim creative achievement and original discoveries proponents and opponents of science in a religiously oriented society and finally the complex factors that account for the end of the 500 year Muslim renaissance The book brings together and treats in depth using primary and secondary sources in Arabic Turkish and European languages subjects that are lightly and uncritically brushed over in non specialized literature such as the question of what can be considered to be purely original scientific advancement in Muslim civilization over and above

what was inherited from the Greco Syriac and Indian traditions what was the place of science in a religious society and the question of the curious demise of the Muslim scientific renaissance after centuries of creativity The book also interprets the history of the rise achievement and decline of scientific study in light of the religious temper and of the political and socio economic vicissitudes across Islamdom for over a millennium and integrates the Muslim legacy with the history of Latin European accomplishments It sets the stage for the next momentous transmission of science from the West back to the Arabic speaking world of Islam from the last half of the 19th century to the early 21st century the subject of a second volume
