

Have students read the goals for the unit and mark any words that are unfamiliar to them. Have students add these words to their Classroom Word Wall, along with definitions.

How many words would be just three goals in a single page in the Classroom for the duration of this unit, allowing you and your students to revisit the goals easily and gauge progress toward achieving goals throughout the unit.

ACADEMIC VOCABULARY

Important terms in this unit are divided into academic vocabulary (those words that are used in multiple curricula) and literary terms, which are specific to the study of literature and language arts.

Adding to vocabulary knowledge is essential for reading fluently. Students will encounter new vocabulary in this course in multiple ways:

- Academic Vocabulary
- Literary Terms
- Connotation terms in text selections (suffix glosses)
- Word Connections
- Oral Discussions

Encourage students to keep a Reader/Writer Notebook in which they record new words and their meanings (and pronunciations if needed), having students use word study graphic organizers to study key vocabulary terms to depth will greatly enhance their understanding of new words and their connection to unit concepts and to the broader use of academic terms.

See the Resources section at the back of this book for examples of graphic organizers suitable for word study. As students become more familiar with using graphic organizers to explore the meaning of a word, you may want them to create their own graphic organizers.

GOALS

- To use context evidence to assess academic vocabulary
- To write a literary analysis essay
- To analyze context and structure in study of informational text
- To compare and contrast a philosophical concept
