The Cold War in the Classroom Barbara Christophe, Peter Gautschi, Robert Thorp, 2019-10-23 This book is open access under a CC BY 4.0 license This book explores how the socially disputed period of the Cold War is remembered in today's history classroom Applying a diverse set of methodological strategies the authors map the dividing lines in and between memory cultures across the globe paying special attention to the impact the crisis driven age of our present has on images of the past Authors analysing educational media point to ambivalence vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies Others focus on teachers and the history classroom showing how unresolved political issues create tensions in history education They render visible how teachers struggle to handle these challenges by pretending that what they do is just history The contributions to this book unveil how teachers backgrounding the political inherent in all memory practices often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach

Brown, Alejandro Miseses Castellanos, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Shaping visual literacy has been at the forefront of contemporary discourse as images have increasingly surpassed words in becoming the primary vehicles to persuade our emotions Visually encoded domains of symbols and signs inform the educational public and entertainment industries increasingly as an undifferentiated whole aided by globalizing media forces in various forms Whether top down peer to peer one to many or many to many this volume attempts to derive sets of rules used to visually decode patterns present in certain media formats press cinema television and maps among others and the place of the spectator in their respective dynamics The topics discussed transition through various approaches to deconstruct mass media influences

to engage critical thinking skills and ending with a collection of chapters dedicated to exploring their effects upon children and the capacity to be implemented to foster collaboration based creative learning environments

Holocaust Memory and Racism in the Postwar World Shirli Gilbert, Avril Alba, 2019-07-08 Traces the history of connections between Holocaust memory and the discourse of anti racism The Holocaust is often invoked as a benchmark for talking about human rights abuses from slavery and apartheid to colonialism ethnic cleansing and genocide Western educators and politicians draw seemingly obvious lessons of tolerance and anti racism from the Nazi past and their work rests on the implicit assumption that Holocaust education and commemoration will expose the dangers of prejudice and promote peaceful coexistence *Holocaust Memory and Racism in the Postwar World* edited by Shirli Gilbert and Avril Alba challenges the notion that there is an unproblematic connection between Holocaust memory and the discourse of anti racism Through diverse case studies this volume historicizes how the Holocaust has shaped engagement with racism from the 1940s until the present demonstrating that contemporary assumptions are neither obvious nor inevitable *Holocaust Memory and Racism in the Postwar World* is divided into four sections The first section focuses on encounters between Nazism and racism during and immediately after World War II demonstrating not only that racist discourses and politics persisted in the postwar period but also perhaps more importantly that few people identified links with Nazi racism The second section explores Jewish motivations for participating in anti racist activism and the varying memories of the Holocaust that informed their work The third section historicizes the manifold ways in which the Holocaust has been conceptualized in literary settings exploring efforts to connect the Holocaust and racism in geographically culturally and temporally diverse settings The final section brings the volume into the present focusing on contemporary political causes for which the Holocaust provides a benchmark for racial equality and justice Together the contributions delineate the complex history of Holocaust memory recognize its contingency and provide a foundation from which to evaluate its moral legitimacy and political and social effectiveness *Holocaust Memory and Racism in the Postwar World* is intended for students and scholars of Holocaust and genocide studies professionals working in museums and heritage organizations and anyone interested in building on their knowledge of the Holocaust and the discourse of racism

A Pedagogical Design for Human Flourishing Cynthia

McCallister,2022-03-28 In A Pedagogical Design for Human Flourishing Transforming Schools with the McCallister Model
Cynthia McCallister presents a revolutionary paradigm for education that is practical conceptually convincing and grounded in contemporary behavioral science theory Beginning with the assertion that equality of educational opportunity depends on access to experiences that are sufficiently appropriate and rich to enable the achievement of diverse human potentials she provides a comprehensive school design for intervention that demonstrates how to achieve it Grounded in recent advances in learning science McCallister asserts three necessary conditions for learning the need for learners to have access to diverse rich environmental experiences the need for them to enjoy fundamental freedom and autonomy to direct their own learning and access to full and free forms of association In her model these conditions provide what is necessary for learners to coordinate their minds with others to develop their identities personalities and talents These conditions are animated in concrete procedures that can be adapted to a wide variety of populations in formal informal and remote educational settings The procedures take the form of rules that learners comply with in the exercise of their freedom When they are followed the rules provide a grammar for the social norms that govern the moral worlds of learners and compel them to flourish Tested over two decades in her work as a teacher scholar and school reformer in more than 20 NYC public schools the McCallister Method has delivered an innovative and disruptive approach to schooling that has proven successful in finally transforming low performing industrial schools into 21st century learning organizations Online support material includes assessments records surveys and more to be used in school design and classroom settings History Carol-Anne Stephenson,2015
