Theory-Driven Evaluations Huey T. Chen, 1990-01-01 With the publication of *Theory Driven Evaluations* Huey Tsyh Chen has given us an ambitious volume Indeed it is the aspiration of this book to provide a conceptual framework that integrates the diverse approaches and paradigms of evaluation For those of us accustomed to the rhetoric of the paradigm wars that have been raging in recent years it is refreshing to find a text that works so assiduously at reconciliation There is much that is useful in Chen's analysis He gives us a full and thoughtful book that attempts no less than the construction of a conceptual framework for all of program evaluation It provides an impressive compendium of source material and references spanning not only evaluation but related work in economics and public policy this alone is worth the price of the book Chen's *Theory Driven Evaluations* provides a stimulating even heroic attempt to bring some conceptual integration to a field that has been too long dominated by methodological paradigms and procedural particulars a prepublication review for *Evaluation and Program Planning* Generous use of examples which are well selected and lucidly summarized *Contemporary Sociology* Chen introduces a new comprehensive framework for program evaluation that is designed to bridge the gap between method and theory oriented perspectives For program planners decision makers scholars and students this volume clarifies illuminates and provides unique insights into the conception construction and implementation of a wide range of programs The research examples used in the discussion draw upon various areas such as education welfare health criminal justice job training and family construction to attract a wider audience *Journal of Applied Rehabilitation Counseling* Program evaluation has traditionally emphasized the application of social science research methods in evaluation activities However there is a growing awareness that program theory is vital for broadening the scope and enhancing the usefulness of program evaluation In *Theory Driven Evaluations* Huey Tsyh Chen introduces a new comprehensive framework for program evaluation that is designed to bridge the gap between the method and theory oriented perspectives He provides an intensive discussion of the nature and functions of program theory approaches to constructing program theories and the integration of program theory with evaluation processes Specific types of theory driven evaluations as well as principles and guidelines for application are developed for meeting different policy purposes Application of systematic strategies is illustrated by concrete examples from a variety of evaluation studies in different fields The presentation of this new perspective directly addresses the needs and concerns in both the professional and applied areas of program evaluation For program planners decisionmakers scholars and students this volume will clarify illuminate and provide unique insights into the conception construction and implementation of a wide range of programs *Practical Program Evaluations* Gerald A. Emison, 2007 Program evaluation requires attention to rationality rigor and careful methods Yet precision and accuracy alone do not

guarantee that program evaluations will be implemented This text hones in on the applied side of program evaluation presenting program evaluations that are used and improve public enterprises *The Use of Values in Program Evaluation* Carolynn Evans Wanner,1982 **Program Evaluation** Blaine Worthen,1997-01-01 **Program Evaluation** ,2010

Program Evaluation Kenneth J. Linfield, Emil J. Posavac,2018-09-03 This text provides a solid foundation in program evaluation covering the main components of evaluating agencies and their programs how best to address those components and the procedures to follow when conducting evaluations Different models and approaches are paired with practical techniques such as how to plan an interview to collect qualitative data and how to use statistical analyses to report results In every chapter case studies provide real world examples of evaluations broken down into the main elements of program evaluation the needs that led to the program the implementation of program plans the people connected to the program unexpected side effects the role of evaluators in improving programs the results and the factors behind the results In addition the story of one of the evaluators involved in each case study is presented to show the human side of evaluation This new edition also offers enhanced and expanded case studies making them a central organizing theme and adds more international examples New online resources for this edition include a table of evaluation models examples of program evaluation reports sample handouts for presentations to stakeholders links to YouTube videos and additional annotated resources All resources are available for download under the tab eResources at www.routledge.com 9781138103962
