Accounting for Beginners: "Take Charge of Your Finances in 30 Days" ,2026-01-10 Accounting goes beyond numbers to the language spoken by every organisation it also serves as the basis for every financial decision Despite the above fact it is rather unbelievable that so many people still find the language to be intimidating confusing and believes the language should only be spoken by Accountants If you have ever looked through a financial statement and you felt lost with terms like Debit and Credit assets liabilities equity and wondered what those words means I would say you are not alone However the truth is that virtually anyone can learn and speak the language and once you understand it your financial situation is on edge of soaring higher Accounting gives you the knowledge of how money truly works it guides you against making costly financial mistakes helps you make a smarter and well informed decision based on numbers and confidence in the language If you are managing your personal finances or you are an entrepreneur or possibly contemplating building a career around accounting and finance I assure you once you understand it you start seeing and acting well financially This book has been designed for people such as you who desire a clear step by step guide structured with a daily task to accomplishing financial freedom

within thirty days of your consistent and dedicated efforts I can assure you of a very simple and easy to understand language the book has been designed with coupled with real life examples and removing all forms of jargons just for you alone By the time you finished this book you would be able to manage your finances with confidence setup your business accounting records correctly aware of tax implications and plan for retirement effectively I am sure you would going forward see accounting as a bridge to financial freedom and a great financial future I encourage you to trust the process take a deep breath be open and get ready to unlock the required skills to your true freedom financially

The Publishers' Trade List Annual ,1905 The Accountant ,1926 **Capital in the History of Accounting and Economic Thought** Jacques Richard,Alexandre Rambaud,2021-11-29 Starting with the first scientific economists such as Cantillon 1755 and Quesnay 1758 and ending with Piketty 2019 this book explores the treatment of the concept of capital in the history of accounting and economic thought The work provides a rare juxtaposition of the reasoning discourse and writings of accountants and economists With regard to capital this approach highlights the ongoing struggle between these uncongenial twins as Kenneth Boulding put it for primacy in analysing and utilising capitalism But if they are certainly uncongenial the book also argues that it is wrong to ever classify these two disciplines as twins because they have taken very different paths ever since scientism came to dominate in economics and ethical and moral considerations were put to one side This book will be of significant interest to readers to history of economic thought critical accounting and heterodox economics
