Maxim Chuprunov,2013-04-09 Over the last few years financial statement scandals cases of fraud and corruption data
protection violations and other legal violations have led to numerous liability cases damages claims and losses of reputation
As a reaction to these developments several regulations have been issued Corporate Governance the Sarbanes Oxley Act
IFRS Basel II and III Solvency II and BilMoG to name just a few In this book compliance is understood as the process mapped
not only in an internal control system that is intended to guarantee conformity with legal requirements but also with internal
policies and enterprise objectives in particular efficiency and profitability The current literature primarily confines itself to
mapping controls in SAP ERP and auditing SAP systems Maxim Chuprunov not only addresses this subject but extends the
aim of internal controls from legal compliance to include efficiency and profitability and then well beyond because a basic
understanding of the processes involved in IT supported compliance management processes are not delivered along with the
software Starting with the requirements for compliance Part I he not only answers compliance relevant questions in the form
of an audit guide for an SAP ERP system and in the form of risks and control descriptions Part II but also shows how to
automate the compliance management process based on SAP GRC Part III He thus addresses the current need for solutions
for implementing an integrated GRC system in an organization especially focusing on the continuous control monitoring
topics Maxim Chuprunov mainly targets compliance experts auditors SAP project managers and consultants responsible for
GRC products as readers for his book They will find indispensable information for their daily work from the first to the last
page In addition MBA management information system students as well as senior managers like CIOs and CFOs will find a
