Assessment and Treatment of the DWI Offender Charles Wuth, Alan A Cavaiola, 2016-01-28 Work more effectively with DWI offenders This valuable book provides current information on the psychological social demographic and psychiatric characteristics of DWI offenders It also will provide you with up to date assessment strategies that can be employed with offenders who characteristically are resistant to such assessment Until now books written on this subject have focused purely on research that has been done with offenders This book however provides both theoretical and applied strategies for working with this very difficult population in clinical treatment settings Assessment and Treatment of the DWI Offender provides practical treatment approaches such that will help you manage client resistance and incorporate family members and significant others into the treatment process to more effectively treat offenders Assessment and Treatment of the DWI Offender examines the important variables that separate DWI offenders from alcoholics in general as well as the normal population patterns of drinking behavior among offenders the magnitude of the DWI problem in the United States the history of the DWI countermeasures movement prevention and public education organizations such as SADD MADD the Partners in Progress program the College Binge Drinking Initiative and more enforcement techniques like breath testing standardized field sobriety tests on site drug detection devices etc problems with the tools and techniques that are currently being used to address this issue interviewing techniques that work with DWI offenders more Intended primarily for counselors social workers psychologists and other professionals who work with DWI offenders and packed with helpful and easy to read statistical charts and tables this book is also essential for graduate students in psychology social work chemical dependency or any of the helping professions Counseling Addicted Families Gerald A. Juhnke, W. Bryce Hagedorn, 2013-08-16 Although one person's addiction almost inevitably affects his or her family members a surprising number of treatment models appear to operate under the assumption that an individual's addiction occurs in a vacuum By not paying sufficient attention to preexisting family dynamics whether dysfunctional supportive or somewhere in between counselors run the risk of not fully understanding the roots of an individual's addictions or the obstacles to his recovery as a result counselors may undermine their own treatment efforts both by neglecting any underlying family problems and by failing to capitalize upon a family's potential assistance in an intervention with the addicted individual In Counseling Addicted Families Gerald A Juhnke and William Bryce Hagedorn address this problem head on Recognizing that even those treatment providers who understand the importance of the familial context of addiction are often stymied by the variety of family treatment theories and their often imperfect fit for cases of addiction Juhnke and Hagedorn provide a truly integrated model for assessment and treatment Based upon the authors combined 23 years of experience in clinical and treatment supervision the Integrated Family Addictions Model consists of six progressive treatment tiers which organize the relevant family treatment theories into a graduated and coherent sequence beginning with the briefest and least costly forms of therapy If one of the lower tiers

allows clients to reach their treatment goals the patient and therapist need not waste time and resources following the full continuum If however their needs are still unmet they can progress in a logical fashion to more advanced and intensive forms of therapy The book is divided into three broad topic areas designed to provide counselors and graduate students with essential information both about addictions and about the practical applications of various treatment theories Part One discusses the prevalence of addictions their negative impact upon families and the primary existing addiction treatment models including their limitations and benefits Part Two outlines methods of assessment for individual cases and Part Three presents the Integrated Family Addictions Model in detail Along the way the authors deal with specific interventions for families dealing with violence and dual diagnosis The book concludes with an epilogue on professional training which includes an overview of the major professional addiction and marriage and family counseling organizations and the ways in which they might benefit individual practices and practitioners

Assessment in Counseling Richard S. Balkin, Gerald A.
