However, artificial intelligence provides many more opportunities. Ulrich Lichtenthaler shows that companies can achieve an unbeatable competitive advantage by making AI a core part of their innovation strategies. The targeted integration of human and artificial intelligence, which goes beyond standardized applications, enables an enhanced form of intelligence: a super intelligence or Intelligence x. This book will show executives, HR professionals, and consultants how to gradually develop Intelligence x in large and medium-sized organizations and how to use SMART leadership principles and the I3 Integrated Intelligence Incubator as tools for building a unique intelligence architecture. With detailed guidelines for implementation and with many examples from the world's most innovative companies, as well as from start-ups, *Integrated Intelligence* reveals how executives can achieve a sustainable competitive advantage through intelligence-based business models.
