foundational study of these urgent and challenging problems combining critical analysis with practically focused policy contributions. The contributors span the fields of ethics, human rights, international relations, law, philosophy, and global politics. They address normative questions relating to justice, equity, and inequality, and practical questions regarding multi-organizational cooperation, global governance, and international relations. *Moving from the theoretical to the practical: Global Health and International Community* is an essential resource for scholars, students, activists, and policy makers across the globe. **General Studies Paper I** Edgar Thorpe, 2016

**The Future of the Korean Peninsula** Mason Richey, Jagannath P. Panda, David A. Tizzard, 2021-07-28. This book considers both Korea, North Korea and South Korea to examine possible pathways for the years leading up to 2032 and beyond, thus offering a composite picture of Korea and its strategic relevance in Asia and the world at large. Through a combined South-North Olympic team and an effort of jointly hosting the Games, Republic of Korea president Moon Jae-in has marked the year 2032 as special in the future of the Korean Peninsula. Although the International Olympic Committee (IOC) has expressed scepticism about a combined hosting of the Games, the expectation in Korea is that this event will underline the shared destiny of the people inhabiting the peninsula and realign two states still caught in an ideologically fraught civil conflict that is one of the last vestiges of the Cold War. Chapters begin with a brief historical review and analysis of the present before moving to consider how these will shape the next decade, drawing comparative and complementary analyses. No matter how contrasting the contemporary trajectories of both North and South Korea might appear, Korea as a singular entity is an old concept still containing great possibilities. As the ongoing inter-Korean reconciliation process underscores, the futures of North and South Korea can be found in a complementary singular Korea which would again represent an important political, strategic, cultural, and social space in Asia. An evaluation of the future trajectory, social awareness, and perception of the Koreas, this book offers a valuable contribution to the study of North and South Korea and Asian Politics.

**Integrating Timing Considerations to Improve Testing Practices** Melissa J. Margolis, Richard A. Feinberg, 2020-06-03. *Integrating Timing Considerations to Improve Testing Practices* synthesizes a wealth of theory and research on time issues in assessment into actionable advice for test development, administration, and scoring. One of the major advantages of computer-based testing is the capability to passively record test-taking metadata, including how examinees use time and how time affects testing outcomes. This has opened many questions for testing administrators: Is there a trade-off between speed and accuracy in test taking? What considerations should influence equitable decisions about extended time accommodations? How can test administrators use timing data to balance the costs and resulting validity of tests administered at commercial testing centers? In this comprehensive volume, experts in the field discuss the impact of timing considerations, constraints, and policies on valid score interpretations, administrative accommodations, test construction, and examinees' experiences and behaviors, and how to implement the findings into practice. These 12 chapters provide invaluable resources for testing professionals to better understand the inextricable links between

effective time allocation and the purposes of high stakes testing The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

*Foreign Aid and Bangladesh* Mohammad Mizanur Rahman, 2024-08-28 *Foreign Aid and Bangladesh* offers a rich combination of aid history from the evolution of aid as a global agenda after WWII to the rise of different multilateral bilateral and emerging donors and their policy shifts and a nuanced perspective of aid partnerships at the country level Drawing on first hand experiences and insights the author deeply investigates the realities of a longstanding aid recipient Bangladesh and argues that without a political economy approach one cannot understand the realpolitik of development aid As an emerging economy from the Global South Bangladesh has been a longstanding partner and recipient of international aid since 1971 Bangladesh has also been active in the global discussions leading to redefining the new narrative and arguments for the new aid regime since the beginning of this century Building on the analysis of

Bangladesh's aid relations the book shows that there has not been any qualitative shift in aid behavior in the new aid regime that set new norms after the end of the Cold War to ensure recipients ownership and welcomed an expanding aid landscape by integrating emerging economies from the Global South for achieving better development results The book analyzes the role of different actors in the development partnership both traditional and emerging donors such as China and India and their partnership practices It examines different forms of aid and their changing perspective particularly technical assistance Based on more than two decades of research and profound insider observations the book debunks the myth that Southern providers could be more benign to their partners The arguments placed in the book expose that there is no difference between traditional and emerging donors in ensuring donors business and strategic interests While donors continue to ensure their interests in providing aid the Realpolitik of the situation in the recipient country shows that there is a specific economic and political agenda in pursuing aid Presenting a comprehensive picture of Bangladesh's aid partnership through the lens of new development partnership principles and narratives of development aid this book will be of interest to scholars and researchers of aid and development studies and political science as well as South Asian Studies Donor officials civil servants and national and international policy communities will also benefit from this book
