

# Read aloud

READ ALOUD

**Preparation time:**  
30–40 seconds

**Time to read the text aloud:** 30–40 seconds

**Number of these tasks in each test:** 6–7

In *Read aloud* tasks, you read a short text out loud. How well you can do this shows how well you understand the text.

- You will see instructions, a recording status box and a short text.
- You have 30–40 seconds to prepare. Then read the text aloud into the microphone.
- This task tests your Reading and Speaking skills (pronunciation, intonation, rhythm, stress, linking and fluency).

1. The timer shows the time left for all tasks in this part of the test.
2. Read the task instructions.
3. The recording status box tells you how much time you have left to prepare.
4. After 30–40 seconds, the recording status box changes to 'Recording'. You have another 30–40 seconds to read the text aloud. The recording status box then changes to 'Completed' and the recording stops.
5. Click 'Next' to go to the next task.

The recording will start in 40 seconds.

Astronomers have recently discovered a large cloud of gas, in which many new stars are being formed, not far from our own solar system. While it would seem surprising that this phenomenon hadn't been previously noticed, researchers explained that recent innovations in measuring the distance of gas clouds more accurately led to this discovery after earlier observations were reinterpreted.

## Skills tested

### ➤ Reading

- Understanding overall meaning
- Understanding specific information and details
- Identifying a writer's purpose, style, tone or attitude
- Understanding academic vocabulary
- Reading a text under timed conditions

### ➤ Speaking

- Speaking fluently at a natural speed
- Using clear pronunciation
- Using appropriate intonation, stress, rhythm and linking
- Using a tone appropriate to the reason for speaking (e.g. to inform or to explain)

### Points to remember: Speaking tasks

- You have a chance to **check your microphone** at the beginning. During all speaking tasks, keep your microphone the same distance from your mouth as it was during the microphone check. Speak at the same volume (not louder, not quieter).
- **Don't click 'Next' too soon.** Only move on to the next task when you are sure you are finished with the current one. You can't go back to these tasks to try again.

### Teacher's tips

Remind test takers to speak at a normal volume throughout the test. PTE Academic microphones are sensitive to levels of speech and speaking loudly can distort sound and the ability of the computer to recognise what the test taker is saying. Speaking too loudly can in fact, affect the test takers score negatively.
