**Management Information Systems : Made Easy** Dr. Padmakar Shahare I Dr Ajay Pethe I Dr. Mukul Burghate, Rapid globalization coupled with the growth of the Internet and Information Technology IT has led to a complete transformation in the way businesses or organizations function today This has not only affected the

management culture but has also led to an increase in competition in terms of markets and resources. Businesses have become more customer driven and e business is gaining popularity. Traditional means of communication correspondence have given way to online dealings e mails and chats. With such a radical shift in the approach to doing business came the need for specialized systems to handle the various departments and functions in an organization. Management Information System or MIS is an organized and well structured system used by organizations for the collection storage processing and dissemination of data in the form of information that facilitates the smooth functioning of the organization. Management information systems involve three primary resources people technology and information or decision making. It is in this context a textbook on introduction to the subject of MIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non commercial considerations. However it is implicit that these are exam oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In depth knowledge.
