**Electrical
Engineering**

Asian Edition

A close-up photograph of a hand holding a glowing incandescent lightbulb. The lightbulb is illuminated from within, casting a warm, yellowish glow. The hand is positioned in the lower-left quadrant of the frame, with fingers gently gripping the base of the bulb. The background is a solid, deep black, which makes the light from the bulb stand out prominently. The overall composition is simple and focused on the lightbulb as a symbol of ideas and electricity.
