Bible Prophecy Understanding Future Events:

Aspects of Assemblies of God Origins Daniel Isgrigg, 2024-08-27 With the Assemblies of God now over a century old this book takes a fresh look at critical issues in the AG's origins. While not a comprehensive retelling, this book is a series of essays that explore different historiographical issues that will clarify or correct historical narratives with new research. Topics include re-examining the early relationship with the Church of God in Christ, assessing the AG's evangelical identity and attitudes toward theology and education. Some three decades since the last AG history, this volume will shed new light on these important theological and cultural issues to better understand its roots. Perhaps these conversations will help the AG better understand its history as the fellowship approaches the problems it faces today. **End Times to 2019** David Montaigne, 2013-01-09 Does the end of the Mayan Calendar start the countdown to Judgment Day? Biblical and historical researcher David Montaigne concludes that this is the case. He says that the end of the Mayan Long Count is the official start of the Bible's seven-year tribulation, both were focused on the same astronomical events that occur from 2012 to 2019. The world as we know it will be gone by 2020. Texts from ancient India tell us about great cycles of destruction. The Egyptians told the same basic story with different names. The Maya reveal another version of the story and were very clear about the timing of events from December 2012 to 2019. Your average American is no expert on these cultures, but most people do have a Bible at home, and the clearest details on what is about to happen can be found in the Bible if you don't let someone else tell you which parts you should focus on. No, this isn't what you were taught in Sunday school. Religious leaders guide us between the raindrops of curious comments in the Bible. We are discouraged from focusing on the parts they say we weren't meant to understand. But if we stop glossing over these important passages, we will understand a flood of details about the End Times. Our leaders are not ignorant of these events. The elite already know what is about to happen, and they have made preparations most rational people would not believe because evidence is suppressed to avoid chaos. They want us to remain ignorant or at least to believe that the details are secrets that cannot be known. But the coming events and their timing are not secrets. Years ago, this book's publication would not have been tolerated by those in power. But by now, it doesn't matter much; their plans are not going to be interfered with at this point. Your plans, however, can still be formulated if you make the choice to understand. Topics include Bible Prophecy, Matthew 24:36, Knowing the hour and the day, The Mayan Calendar, and Mythology, Pole Shifts, Galactic Superwaves, Ancient Egypt, Ancient India, World Mythology, The Georgia Guidestones, The real Star of Bethlehem, and the exact birthday of Christ.
