The study discusses the opposition and negotiation between Indonesian cuisine and visionary cuisine, especially in the context of high-end restaurants and international culinary standards. Indonesia's regional dishes have their own visual appearance, but the question is whether they are accepted by international culinary standards. The Western culinary industry emphasizes visual perception, with dishes being meticulously presented and visually appealing. However, Indonesian cuisine, with its focus on flavors and aromas, may not conform to the image standards of fine dining.

In Search of Admiration and Respect Yanqiu Zheng, 2024-09-23 *In Search of Admiration and Respect* examines the institutionalization of Chinese cultural diplomacy in the period between high imperialism and the international ascendance of the People's Republic of China. During these years Chinese intellectuals and officials tried to promote the idea of China's cultural refinement in an effort to combat negative perceptions of the nation. Yanqiu Zheng argues that unlike similar projects by more established powers, Chinese cultural diplomacy in this era was not carried out solely by a functional government agency; rather, limited resources forced an uneasy collaboration between the New York-based China Institute and the Chinese Nationalist government. *In Search of Admiration and Respect* uses the Chinese case to underscore what Zheng calls the infrastructure of persuasion in which American philanthropy, museums, exhibitions, and show business had disproportionate power in setting the agenda of unequal intercultural encounters. This volume also provides historical insights into China's ongoing quest for international recognition. Drawing upon diverse archival sources, Zheng expands the contours of cultural diplomacy beyond established powers and sheds light on the limited agency of peripheral nations in their self-representation.

The Ontario Weekly Notes, 1910 **Beggars and Thieves** Mark S. Fleisher, 1995 As the incidence of violent crime rises in the United States, so does the public demand for a solution. But what will work? Mark S. Fleisher has spent years among inmates in jails and prisons and on the streets with thieves, gang members, addicts, and life-long criminals in Seattle and other cities across the country. In *Beggars and Thieves* he writes about how and why they become and remain offenders and about the actual role of jails and prisons in efforts to deter crime and rehabilitate criminals. Fleisher shows with wrenching firsthand accounts that parents who are addicts, abusers, and criminals beget irreversibly damaged children who become addicts, abusers, and criminals. Further, Fleisher contends that many well-intentioned educational and vocational training programs are wasted because they are offered too late to help. And he provides sobering evidence that many youthful and adult offenders find themselves better off in prison with work to do, medical care, a clean place to sleep, regular meals, and stable social ties than they are in America's cities. Fleisher calls for anti-crime policies that are bold, practical, and absolutely imperative. He prescribes life terms for violent offenders, but in prisons structured as work communities where privileges are earned through work in expanded productive industries that reduce the financial burden of incarceration on the public. But most important, he argues that the only way to prevent street crime, cut prison growth, and reduce the waste of money and human lives is to permanently remove brutalized children from criminal, addicted, and violent parents.
