Earth at Risk in the 21st Century: Rethinking Peace, Environment, Gender, and Human, Water, Health, Food, Energy Security, and Migration Úrsula Oswald Spring, 2020-04-03 Earth at Risk in the 21st Century offers critical interdisciplinary reflections on peace security gender relations migration and the environment all of which are threatened by climate change with women and children affected most Deep rooted gender discrimination is also a result of the destructive exploitation of natural resources and the pollution of soils water biota and air In the Anthropocene the management of human society and global resources has become unsustainable and has created multiple conflicts by increasing survival threats primarily for poor people in the Global South Alternative approaches to peace and security focusing from bottom up on an engendered peace with sustainability may help society and the environment to be managed in the highly fragile natural conditions of a hothouse Earth Thus the book explores systemic alternatives based on indigenous wisdom gift economy and the economy of solidarity in which an alternative cosmivision fosters mutual care between humankind and nature Special analysis of risks to the survival of humankind in the 21st century Interdisciplinary studies on peace security gender and environment related to global environmental and climate change Critical reflections on gender relations peace security migration and the environment Systematic analysis of food water health energy security and its nexus Alternative proposals from the Global South with indigenous wisdom for saving Mother Earth Conservation Skills for the 21st Century Chris Caple, Emily Williams, 2023-05-12 Conservation Skills for the 21st Century provides a much needed update to the original Conservation Skills volume presenting an overview of current issues facing conservators of historic and artistic works Beginning with the basics why the past is important as well as an overview of the nature and history of conservation the book allows the reader to develop a holistic appreciation of the subject As with the first edition this volume assists with the development of judgement in conservation students and young professionals A selection of new case studies representing issues conservators are likely to face in the 21st century illustrates the crucial considerations that must be made when proposing and executing a conservation treatment Incorporating recent developments and use of new technologies in conservation processes the book also covers topics such as conservation ethics recording and documentation investigating and cleaning objects stabilisation and restoration values decision making and responsibilities preventive conservation approaches to the treatment of working and socially active objects sustainability in conservation and the conservator s role as advocate With detailed case studies and written in a clear accessible style Conservation Skills for the 21st Century remains essential reading for student conservators and conservation professionals around the globe working across a wide range of conservation disciplines

**Gale Directory of Databases** ,2001 **Progress in Landslide Research and Technology, Volume 2 Issue 2, 2023** Irasema Alcántara-Ayala, Željko Arbanas, David Huntley, Kazuo Konagai, Snježana Mihalić Arbanas, Matjaž Mikoš, Maneesha V. Ramesh, Kyoji Sassa, Shinji Sassa, Huiming Tang, Binod Tiwari, 2023-12-28 This open access book provides an overview of the

progress in landslide research and technology and is part of a book series of the International Consortium on Landslides ICL. The book provides a common platform for the publication of recent progress in landslide research and technology for practical applications and the benefit for the society contributing to the Kyoto Landslide Commitment 2020 which is expected to continue up to 2030 and even beyond to globally promote the understanding and reduction of landslide disaster risk as well as to address the 2030 Agenda Sustainable Development Goals. Encyclopedia of Caribbean Archaeology Basil A. Reid, R. Grant Gilmore III, 2014-03-04. A sweeping overview of the scholarly information available on archaeology in the Caribbean tackling the usual questions of colonization adaptation and evolution while embracing such newer aspects as geoinformatics and archaeometry. **International Law of Underwater Cultural Heritage** Kim Browne, Murray Raff, 2023-01-01. This book brings together three distinct areas of International Law namely Environmental Heritage and Ocean Law to address the international legal protection of historically significant wrecks with particular focus on the environmental hazards they may pose. The confluence of Heritage Law and the Law of the Sea with International Environmental Law represents an important development in international governance strategies for the twenty first century in particular those legal and administrative regimes that concern the world's oceans and underwater cultural heritage protection. Importantly connections between international legal regimes such as the 1982 Law of the Sea and institutions like the International Maritime Organisation IMO and United Nations Education Scientific Cultural Organisation UNESCO can play a crucial part in governance strategies that involve the regulation of marine pollution and historic shipwrecks.

**Research and Scholarly Publishing in an AI-Powered Academy** Wang, Viktor, 2026-03-19. Artificial intelligence AI has rapidly reshaped research and scholarly publishing becoming an indispensable tool for researchers writers and editors in areas such as verification documentation authorship transparency and data governance. Yet the widespread adoption of these technologies has also introduced new forms of ethical risk across the academic publishing landscape. When used responsibly AI is a transformative asset capable of streamlining the research process by analyzing complex data sets synthesizing existing literature and providing administrative and workflow support. However the pace of its integration has outstripped the development of standardized guidelines and clear best practices. As a result there is an urgent need for research that equips scholars with practical field specific guidance for conducting rigorous ethical and efficient research in an AI enhanced academic environment. Such work is essential not only for preserving research integrity but also for ensuring that AI's benefits are realized without compromising the values at the core of scholarly inquiry. **Research and Scholarly Publishing in an AI Powered Academy** advances ethical and transparent AI use by providing clear standards for output verification documentation practices authorship attribution and data management. The book addresses common vulnerabilities in AI assisted research by outlining repeatable high quality control workflows. In doing so it enhances methodological rigor improves the reliability of literature reviews and empirical claims and supports more efficient and trustworthy knowledge.
