New Perspectives on Corpus Translation Studies Vincent X. Wang, Lily Lim, Defeng Li, 2021-10-11 The book features recent attempts to construct corpora for specific purposes e.g. multifactorial Dutch parallel Geasy Easy Language Corpus intralingual HK LegCo interpreting corpus and showcases sophisticated and innovative corpus analysis methods It proposes new approaches to address classical themes i.e. translation pedagogy translation norms and equivalence principles of translation and brings interdisciplinary perspectives e.g. contrastive linguistics cognition and metaphor studies to cast new light It is a timely reference for the researchers as well as postgraduate students who are interested in the applications of corpus technology to solving translation and interpreting problems

Corpus-Based Translation Studies Alet Kruger, Kim Wallmach, Jeremy Munday, 2011-06-16 This is a collection of leading research within corpus based translation studies CTS CTS is now recognized as a major paradigm that has transformed analysis within the discipline of translation studies It can be defined as the use of corpus linguistic technologies to inform and elucidate the translation process something that is increasingly accessible through advances in computer technology The book pulls together a wide range of perspectives from respected authors in the field All the chapters deal with the implementation of the basic concepts and methodologies providing the reader with practical tools for their own research The book addresses key issues in corpus analysis including online corpora and corpus construction and covers both translation and interpreting The authors look at various languages and utilize a variety of approaches qualitative and quantitative reflecting the breadth of the field and providing many valuable examples of the methodology at work

The Interface between Scientific and Technical Translation Studies and Cognitive Linguistics Ralph Krüger, 2015-04-17 Scientific and Technical Translation STT is a highly complex and knowledge intensive field of translation and cognitive linguistics is a usage based linguistic framework which provides powerful theoretical tools for modelling knowledge organisation and representation in discourse This book explores the interface between scientific and technical translation studies and cognitive linguistics by discussing the epistemological contextual textual and cross linguistic dimensions of scientific and technical translation from a cognitive linguistic perspective Particular emphasis is placed on explicitation and implicitation as indicators of the interaction between text and context in STT The corpusbased investigation of the two phenomena illustrates the complex knowledge requirements pertaining to scientific and technical translation and demonstrates the explanatory power of cognitive linguistics with regard to important textual and contextual aspects of STT

Doubts and Directions in Translation Studies Yves Gambier, Miriam Shlesinger, Radegundis Stolze, 2007 Like previous collections based on congresses of the European Society of Translation Studies EST this volume presents the latest insights and findings in an ever changing ever challenging domain The twenty six papers carefully chosen from about 140 presented at the 4th EST Congress offer a bird's eye view of the most pressing concerns and most exciting vistas in Translation Studies today The editors' final choices reflect a focus on quality of approach originality of topic and clarity of presentation and aim at

capturing the most salient developments in the contemporary theory methodology and technology of TS As always in EST the themes covered relate to translation as well as interpreting They include discussion of a broad range of text types and skopoi and a diversity of themes such as translation universals translation strategies translation and ideology perception of translated humor translation tools etc Many of the papers force us to take a fresh look at seemingly well established paradigms and familiar notions while also making recourse to work being done in other disciplines Semiotics Linguistics Discourse Analysis Contrastive Studies

ROUTLEDGE ENCYCLOPEDIA OF INTERPRETING STUDIES Franz Pochhacker, 2015-09-25 The Routledge Encyclopedia of Interpreting Studies is the authoritative reference for anyone with an academic or professional interest in interpreting Drawing on the expertise of an international team of specialist contributors this single volume reference presents the state of the art in interpreting studies in a much more fine grained matrix of entries than has ever been seen before For the first time all key issues and concepts in interpreting studies are brought together and covered systematically and in a structured and accessible format With all entries alphabetically arranged extensively cross referenced and including suggestions for further reading this text combines clarity with scholarly accuracy and depth defining and discussing key terms in context to ensure maximum understanding and ease of use Practical and unique this Encyclopedia of Interpreting Studies presents a genuinely comprehensive overview of the fast growing and increasingly diverse field of interpreting studies
