Geographies of Cubanidad Rebecca

M. Bodenheimer, 2015-07-10 Derived from the nationalist writings of Jos Mart the concept of Cubanidad Cubanness has always imagined a unified hybrid nation where racial difference is nonexistent and nationality trumps all other axes identities Scholars have critiqued this celebration of racial mixture highlighting a gap between the claim of racial harmony and the realities of inequality faced by Afro Cubans since independence in 1898 In this book Rebecca M Bodenheimer argues that it is not only the recognition of racial difference that threatens to divide the nation but that popular regional sentiment further contests the hegemonic national discourse Given that the music is a prominent symbol of Cubanidad musical practices play an important role in constructing regional local and national identities This book suggests that regional identity exerts a significant influence on the aesthetic choices made by Cuban musicians Through the examination of several genres Bodenheimer explores the various ways that race and place are entangled in contemporary Cuban music She argues that racialized notions which circulate about different cities affect both the formation of local identity and musical performance Thus the musical practices discussed in the book including rumba timba eastern Cuban folklore and son are examples of the intersections between regional identity formation racialized notions of place and music making **Rumba** Yvonne

Daniel, 1995 From the barrio and streets to the theatre and stage rumba has emerged as an important medium contributing to national goals and promoting international prestige Using dance anthropology to illuminate the values and attitudes embodied in rumba this work explores the relationship between dance and the complex changes in contemporary Cuba

Rumba Soloing Technique, Volume 1 Cliff Brooks, 2011-08-18 Learn to play Rumba with Afro Cuban flavor. In this book beginners learn basic timing syncopation and improvisation. Intermediate to advanced drummers learn to throw down some of the funkier Afro Cuban Licks on their favorite drum whether it is a Conga Bongo Timbales Traps etc. The revolutionary self teaching method in this book brings together two different learning approaches for Afro Cuban drumming. The first approach is to learn by way of reading written notation the second is to learn solely by listening and feeling. The method simultaneously incorporates the various senses in teaching different improvisation patterns. This approach helps to ingrain the learning process at a deeper psychological level. Each expression can be played with the bass drum downbeats provided on the companion CD. This helpful learning aid will ensure proper pulse and timing. After mastering each expression with the bass drum playing downbeats the Guaguanco rhythm is introduced to further the learning process.

The Beat, 2005 **Program** San Francisco Symphony Orchestra, 1929 **Black Music of Two Worlds** John Storm Roberts, 1998 *Black Music of Two Worlds* is a classic text showing the vast influence of African music on musical cultures throughout the world. First published in 1972 the book forecast today's interest in world music and the cross pollination of musical cultures. In this new edition the author has thoroughly revisited the text adding new information about recent musical styles. The book begins with a study of African roots and then shows how these musics were preserved and transformed on the North American continent in the Caribbean and in South and Central America. It then traces the flow of musical styles back from the New World to Africa. This is the only book to show the pervasive influence of African styles on a wide variety of musics from traditional folk and blues to jazz to salsa calypso reggae and rap. Book jacket Jacket
