The Craft of Fiction David Letzler, 2017-06 A 2017 Choice Outstanding Academic Title What is the strange appeal of big books The mega novel a genre of erudite tomes with encyclopedic scope has attracted wildly varied responses from fanatical devotion to trenchant criticism Looking at intimidating mega novel masterpieces from *The Making of Americans* to *2666* David Letzler explores reader responses to all the seemingly random irrelevant pointless and derailing elements that comprise these mega novels elements that he labels *craft* after the computer science term for junk code In *The Craft of Fiction* Letzler suggests that these books are useful tools to help us understand the relationship between reading and attention While mega novel text is often intricately meaningful or experimental sometimes it is just excessive and pointless On the other hand mega novels also contain text that though appearing to be *craft* turns out to be quite important Letzler posits that this *craft* requires readers to develop a sophisticated method of attentional modulation allowing one to subtly distinguish between text requiring focused attention and text that must be skimmed or even skipped to avoid processing failures *The Craft of Fiction* shows how the attentional maturation prompted by reading mega novels can help manage the information overload that increasingly characterizes contemporary life **Upon Further Review** Michael Cocchiarale, Scott Emmert, 2004-09-30 Over the course of the last century American fiction writers and poets have used sports figures and

sporting events in order to make significant points on themes of identity as they are connected to gender race class and nationality The contributors to this volume examine American literature that uses sports as a trope to explore or disturb core values of this country They explore individual works in order to uncover the rich connections between those works use of sports and issues of importance to American culture from approximately 1920 to the end of the twentieth century Focusing on four general themes this volume offers a range of commentary on a variety of American literature The first section features essays that explain how sports are used by writers to explore or critique American values The next two sections contain essays that investigate the ways in which writers have used sports to express ideas about race class and gender The final section turns to questions of aesthetics featuring essays that concentrate on form technique and language itself Together contributors cover a number of literary works that feature a wide variety of sports from the expected baseball to the more surprising body building and wilderness adventuring American Writers Leonard Unger,A. Walton Litz,Molly Weigel,Jay Parini,Lea Bechler,1974 Madison Smartt Bell to John Edgar Wideman *A Fellow of Infinite Jest* Thomas Yoseloff,1970 Mute , Poets & Writers ,2006 *Contemporary Authors* ,1998 Sense and Nonsensibility Lawrence Douglas,Alexander George,2004 These two Amherst professors scathingly and hilariously lambaste book culture and intellectuals leaving absolutely no stone unturned and nothing sacred **Concise Major 21st-Century Writers** Tracey L. Matthews,2006 A comprehensive five volume set Concise Major 21st Century Writers profiles today s most outstanding and widely known writers Clearly written in an easy to use format it collects detailed biographical and bibliographical information on approximately 700 authors who are most often studied in college and high school *Mark Sykes* Shane Leslie,1923
