Capturing Customers' Hearts Brian Clegg, 2000 We all realize how important customers are We all know what will help build a good relationship with our customers Yet so often it is done badly Unlike great products and low prices great customer service is hard to copy In a fiercely competitive world differentiation is the name of the game Capturing Customers

Hearts analyzes companies where the product or the company itself generates a special reaction in a customer something much more than brand loyalty true affection Building 12 components of charisma on the foundation of service delivery it uses examples of best and worst practice to pinpoint the forces that will win new customers keep them and capture their hearts Capture your customers hearts their loyalty will follow There has been a crucial focus on customer service for at least 15 years So does this mean that we can concentrate on the next big thing Not a chance Survey after survey has shown that really good customer service is still the exception And with customer expectations higher than ever and the competition not standing still especially with the emergence of the wired world an outstanding customer relationship is the only safe way of building differentiation To make a customer relationship the driving force behind repeat business and differentiation calls for a quantum shift in thinking and doing from customer friendliness to customer charisma A business with charisma gives the customer something very special When you deal with a business with charisma you want to tell others about it You want to share your feelings This book is about giving your business charisma Capturing Customers Hearts analyzes what lies behind customers emotional attachment to a product or service and teaches you how to create customer charisma so that not only is your company winning new customers but is keeping its existing ones You ll never look at your customers in the same way again Reviews Essential reading every page presents insights and facts that are now crucial to differentiation and success Adrian E Lucas CEO Imerge Limited Yet again Brian goes to the heart of the issue giving an inspired insight into the realities of managing customer relationships A must for companies who want to stand out like a beacon by going the extra light year for their customers Tony Solomon Marketing Communications Director Zurich IFA Group Brian Clegg s new book is a tour de force It ranges wide over the vast terrain of customer service as well as digging deep into some of the fundamental issues that still need to be addressed Not only did I learn a lot from this excellent book but I found it incredibly enjoyable to read David Freemantle author The Stimulus Factor Provides brilliant insights into attracting and retaining customers Tim Robison Director Lucent Technologies **Business in Russia** ,1995 **Marketing Flops** Sarah Hündgen,2011-09-02 Bachelor Thesis from the year 2010 in the subject Business economics Offline Marketing and Online Marketing grade 1.3 Otto Beisheim School of Management Vallendar language English abstract The aim of this thesis is to come up with a typology of marketing flop areas Therefore I will present 90 marketing failures and analyze them in regard to the obvious and less obvious reasons for the failure 1 Furthermore the case studies will be categorized according to the marketing function in which the mistake occurred I will then present characteristics common to the cases in each category To ease the accessibility of the text references will only appear in the tables integrated into the section In the second part of this thesis three cases will be analyzed in depth concerning how the decisions causing the marketing mistake were made Therefore I will provide a summary of the decision in question as well as of its objectives and consequences to then retrace the different steps that lead to the wrong decision For each of these cases I will also outline how the failure could have been prevented Finally I will

shortly summarize the most important results of my research I will also mention which limitations I encountered while preparing this thesis and suggest further questions that in my mind are relevant to research in the field of marketing flops

The Advertising Red Books ,2007 JPRS Report ,1993-02 The Coming Authoritarian Ecology Fabrice Flipo,2018-05-24 The book examines ecological issues such as climate change and biodiversity articulating local and global scales and short and long term perspectives questioning what development and progress are The goal is to show how diverging points of view are conflictingly articulated to one another in a political ideology perspective This perspective which is close to the main actor s point of view allows displacement of the usual analysis and offers a new synthesis Energy Policy ,1997 **Action auto moto** ,2005-07 **Info-C** ,1995
