The Big Book of Home Learning Volume 1 Getting Started Mary Pride, 2000-09

Homeschooling the Right Heath Brown, 2021-01-12 For four decades the number of conservative parents who homeschool their children has risen. But unlike others who teach at home, conservative homeschool families and organizations have amassed an army of living room educators ready to defend their right to instruct their children as they wish, free from government intrusion. Through intensive but often hidden organizing, homeschoolers have struck fear into state legislators, laying the foundations for Republican electoral success. In *Homeschooling the Right*, the political scientist Heath Brown provides a novel analysis of the homeschooling movement and its central role in conservative efforts to shrink the public sector. He traces the aftereffects of the passage of state homeschool policies in the 1980s and the results of ongoing conservative education activism on the broader political landscape, including the campaigns of George W. Bush and the rise of the Tea Party. Brown finds that by opting out of public education services in favor of at-home provision, homeschoolers have furthered conservative goals of reducing the size and influence of government. He applies the theory of policy feedback, how public policy choices determine subsequent politics, to demonstrate the effects of educational activism for other conservative goals such as gun rights, which are similarly framed as matters of liberty and freedom. Drawing on decades of county data, dozens of original interviews, and original archives of formal and informal homeschool organizations, this book is a groundbreaking investigation of the politics of the conservative homeschooling movement. **Homefires**, 2000

Homeschooling High School Jeanne Gowen Dennis, 2004 *Homeschooling High School* 2nd Edition Planning Ahead for College Admission gives you the tools you need to design a solid high school program that both maximizes educational freedom and leads to successful college admission. Handbook of Giftedness in Children Steven I. Pfeiffer, 2008-02-20 Mention special needs children and most people think of students struggling to overcome learning and physical disabilities, as well as problem behaviors that interfere with achieving full academic potential. But there is a hidden population of special needs children: the gifted and talented, and their teachers, parents, and other professionals are often not well equipped to respond to their unique academic and developmental needs. In one comprehensive resource, the *Handbook of Giftedness in Children* brings together leading experts from the fields of psychology and education, combining theory and applied empirical research on such crucial topics as conceptualization, types of intelligence, developmental considerations, and ethical and legal concerns. Particular attention is given to social and family contexts, and evidence-based strategies and interventions offer solid guidelines on assessment, curriculum design, and encouraging and nurturing talent from preschool through adolescence. Sample topics include Approaches to screening and assessment, including IQ and other tests; The gifted child's social world, from peer relationships to gender issues; Special issues of gifted but disadvantaged students; Problems and interventions specific to families with a gifted child; Career

counseling planning and mentorship This volume is an essential resource for anyone working with gifted and talented children including clinical child and school psychologists educators and other allied professionals as well as child psychiatrists family therapists social workers and pediatricians and other healthcare professionals It also serves as an invaluable guide for graduate students in these and related fields *Apples and Chalkdust Notes* Vicki Caruana,2003-10 All students need encouragement and someone to tell them You did a great job or I appreciate your hard work In *Apples and Chalkdust Notes* veteran educator Vicki Caruana gives you simple yet fun notes to communicate positive affirmations to your students Inspired by the best selling *Apples and Chalkdust* series these encouraging notes only take seconds to prepare but will show your students you sincerely care about them and spur them on toward excellence Included are 60 four color tear out notes with stickers to seal them Show your students how special they are to you *The Spectator* ,1903 A weekly review of politics literature theology and art *The Home School Manual* Theodore E. right of admission to all fitting knowledge appears to me to be suggested by the phrase Education is the science of relations

Original Home Schooling Series by Charlotte Mason Charlotte Mason, 2024-05-22 Charlotte Mason's ideas were far ahead of her time. She believed that children are born persons worthy of respect rather than blank slates and that it was better to feed their growing minds with living literature and vital ideas and knowledge rather than dry facts and knowledge filtered and pre-digested by the teacher. Her method of education is gentle and flexible especially with younger children and includes first-hand exposure to great ideas through books in each school subject conveying wonder and arousing curiosity through reflection upon great art, music, and poetry, nature observation as the primary means of early science teaching, use of manipulatives and real-life application to understand mathematical concepts and learning to reason rather than rote memorization and working endless sums, and an emphasis on character and on cultivating and maintaining good personal habits. Schooling is teacher-directed, not child-led, but school time should be short enough to allow students free time to play and to pursue their own interests. Traditional Charlotte Mason schooling is firmly based on Christianity, although the method is also used successfully by secular families and families of other religions. Here in one affordable volume is her complete Homeschooling Series Home Education Six lectures by Charlotte Mason about the raising and educating of young children up to the age of nine for parents and teachers. She details how lessons in various school subjects can be done using her approach. She concludes with remarks about the Will, the Conscience, and the Divine Life in the Child. Parents and Children A collection of 26 articles from the original Parent's Review magazines to encourage and instruct parents. School Education Thoughts about the teaching and curriculum of children aged 9-12 either at school or at home. Ourselves A character curriculum book written directly to children. Book I Self Knowledge is for elementary school students. Book II Self Direction is for older students. Formation of Character Includes case studies of children and adults who cured themselves of bad habits, reflections on subjects including both schooling and vacations or stay-cations as we now call them, various aspects of home schooling with a special section detailing the things that Charlotte Mason thought were important to teach to girls in particular and examples of how education affected outcome of character in famous writers of her day. Towards a Philosophy of Education Charlotte Mason's final book, written after years of seeing her approach in action. This volume gives the best overview of her philosophy and includes the final version of her 20 Principles. This book is particularly directed to parents of older children about ages 12 and up but is a valuable overview for parents of younger children as well, covering both theory and practice.
