[Prevention and reconditioning of injuries in football association](#), This eBook on a relevant and topical subject as the prevention and reconditioning of football injuries has been made possible thanks to the selfless dedication of many people and the institutional support of the Department of Physical Education and Sport of the University of the Basque Country UPV/EHU, the Basque School of Sport of the Basque Government, and the Official Association of Physical Education and Physical Activity and Sport Sciences Graduates of the Basque Country. Thank you all very much! The thrill of competition, the excitement in the stands, and the massive amount of cash running through the veins of the football industry impede us from expecting a change of direction in the situation. Rodri was complaining about it. If injuries are a painful sign of what football practice is, this little contribution wants to be our thankful sign of what science and research can put in play when success is not measured in goals but in longer, healthier careers and more efficient recovery periods.
