By Bojan Radojicic

## RELEVANCE

Financial information should be relevant to the decision-making needs of users. It should have predictive value, confirmatory value, or both.

## FAITHFUL REPRESENTATION

Financial information should faithfully represent the economic phenomena it purports to represent. It should be complete, neutral, and free from error.

## SUBSTANCE OVER FORM

Transactions and events should be accounted for and presented in accordance with their substance and economic reality, rather than merely their legal form.

## PRUDENCE

When uncertainty exists, caution should be exercised in the recognition and measurement of assets, liabilities. Anticipated losses should be recognized immediately, while gains should be recognized only when realized.

## COMPARABILITY

Financial information should be presented in a manner that enables users to compare it with information from other entities and across different periods.

## UNDERSTABILITY

Financial information should be presented in a clear and concise manner, making it understandable to users with reasonable knowledge of business and economic activities.

## TIMELINESS

Financial information should be available to users in a timely manner, allowing them to make informed decisions.

## VERIFABILITY

Financial information should be capable of being verified or corroborated by independent and knowledgeable parties.

## GOING CONCERN

Unless there is evidence to the contrary, it is assumed that the entity will continue to operate for the foreseeable future. Financial statements are prepared on a going concern basis.

## MATERIALITY

Financial information should be material if omitting or misstating it could influence the decisions of users. Materiality depends on the nature and magnitude of the item or information.

About the Book: In the tradition of the *User's Guides to the Medical Literature* and *The Rational Clinical Examination* (JAMA), *Care at the Close of Life* is based on a widely successful series of articles appearing over the course of the last ten years in JAMA, the world's most widely read medical journal. The series is directed by Stephen McPhee, a leading authority of end-of-life care and the chief editor of our market-leading *Current Medical Diagnosis and Treatment* text. The articles in the series cover fundamental topics and challenges in caring for patients who have been given a terminal diagnosis. Featuring a strong focus on evidence-based medicine and organized by clinical cases, the articles are widely read by faculty, medical students, and clinicians who frankly have not been given a solid educational experience on this very important medical issue. The book will be physically

modeled after The Rational Clinical Examination in a full color format that highlights the clinical cases It will be well suited for use as an required or recommended textbook for medical PA and NO students and as a clinical reference text for trainees and practicing physicians and nurses Key Selling Features Based on highly regarded content from the world s most widely read medical journal All content is completely updated and extensive new never before published content has been added Case based and evidence based so its a perfect fit for the way medical students and residents like to learn Focuses on practical real world issues for primary care physicians and avoids esoteric issues of interest only to specialists in palliative care Full color format modeled after the highly regarded Rational Clinical Examination Includes multimedia materials available on line Power Point slides for teaching and video interviews with patients in end of life care so that faculty and students get supplemental resources for learning the art and science of care at the end of life Evidence based guidance from the world s leading medical journal on a critical topic that has been neglected in medical education and training until recently Author Profile JAMA is the world s most widely read medical journal and has a reputation for excellence in evidence based medicine Stephen McPhee has high visibility on account of his editorship of CMDT and for his driving role in enhancing end of life care in medical education and training programs He is Professor of Medicine UCSF School of Medicine San Francisco CA
