

Harvard Case Study Format for Write-up

1. Immediate Issue(s) or Problem(s):

Define the immediate problem(s) or identify the decision(s) that must be made. State a time frame; how long do you have to make the decision?

2. Basic Issue(s) or Associated Issue(s):

List any other issue that might influence your decision. These can be higher level, strategic issues.

3. Issue(s) Analysis or Information Summary:

Summarize the important or major pieces of information from the case. Identify which are the facts, opinions and assumptions. State your assumptions clearly. Analyze any financial information made available in the case; financial analysis is an essential part of your analysis. Identify any long term issues.

4. Alternative Solutions or Options: The most important part!

List the various options available to resolve the problem. Discuss each option and state the advantages (pro) and disadvantages (cons) of each option. Refer to quantitative and/or qualitative information as needed in order to demonstrate the points raised.

This is the major part of the case and demonstrates that you clearly understand the issue(s) and the various possible outcomes. There are usually at least three good options in a case and often many more. Identify each option clearly and always show the pros and cons of each.

5. Recommendation(s) and Implementation:

Based on the analysis of the options, state what you would do to correct the problem (recommendation) and how you would do this (implementation). Your recommendation is usually a restatement of the best option. This is not the time to analyze new options. The implementation plan should list the steps and include a time frame or target date.

6. Monitor and Control:

State the method(s) you will use to determine if your recommendation and implementation plan are working. Some examples are use of budgets, regularly scheduled meetings or scheduled reviews. The approach you use will depend on the nature of the recommendation.

Harvard Case Study Analysis Solutions

Harvard Case Study Analysis Solutions:

Planning for Community-based Disaster Resilience Worldwide Adenrele Awotona, 2016-10-14 We are witnessing an ever increasing level and intensity of disasters from Ecuador to Ethiopia and beyond devastating millions of ordinary lives and causing long term misery for vulnerable populations Bringing together 26 case studies from six continents this volume provides a unique resource that discusses in considerable depth the multifaceted matrix of natural and human made disasters It examines their bearing on the loss of human and productive capital the conduct of national policies and the setting of national development priorities and on the nature of international aid and bilateral assistance strategies and programs of donor countries In order to ensure the efficacy and appropriateness of their support for disaster survivors international agencies humanitarian and disaster relief organizations scholars non governmental organizations and members of the global emergency management community need to have insight into best practices and lessons learned from various disasters across national and cultural boundaries The evidence obtained from the numerous case studies in this volume serves to build a worldwide community that is better informed about the cultural and traditional contexts of such disasters and better enabled to prepare for respond to and finally rebuild sustainable communities after disasters in different environments The main themes of the case studies include the need for community planning and emergency management to unite in order to achieve the mutual aim of creating a sustainable disaster resilient community coupled with the necessity to enact and implement appropriate laws policies and development regulations for disaster risk reduction the need to develop a clear set of urban planning and urban design principles for improving the built environment s capacities for disaster risk management through the integration of disaster risk reduction education into the curricula of colleges and universities the need to engage the whole community to build inclusive governance structures as prerequisites for addressing climate change vulnerability and fostering resilience and sustainability Furthermore the case studies explore the need to link the existence and value of scientific knowledge accumulated in various countries with decision making in disaster risk management and the relevance and transferability from one cultural context to another of the lessons learned in building institutional frameworks for whole community partnerships

Managing Cultural Differences Robert T. Moran, Neil Remington Abramson, Sarah V. Moran, 2014-02-24 The world of business for all organizations in the twenty first century is global interdependent complex and rapidly changing That means sophisticated global leadership skills are required more than ever today Individual and organizational success is no longer dependent solely on business acumen Our ability to understand communicate and manage across borders countries and cultures has never been as important as it is now The understanding and utilization of cultural differences as a business resource is a key building block as companies rely on their global reach to achieve the best profit and performance For this reason international business and cross cultural management are key topics in undergraduate business MBA and executive education programs worldwide as companies and institutions prepare current

and future business leaders for the global marketplace This exciting new edition of the highly successful textbook *Managing Cultural Differences* seeks to guide students and any person with global responsibilities to understand how culture fits in a changing business world how to gain a competitive advantage from effective cross cultural management and gives practical advice for doing business across the globe With updated content new case studies and a new author team *Managing Cultural Differences* is required course reading for undergraduates postgraduates and MBA students alike as well as being of significant value for anyone who sells purchases travels or works internationally

Media Management Bernd W. Wirtz, 2020-09-11 Digitalization significantly changes the media To cope with this change and to exploit new market opportunities is a major challenge for media corporations Bernd Wirtz provides a valuable guideline for this new world combining theory facts and practice Dr Hubert Burda German publisher and Managing Corporate Partner of Hubert Burda Media Holding KG The media business is subject to substantial change while differences between distinctive media areas are fading away This is due to technical innovation in areas like transmittance of content bearer of content and recording devices but also due to new formats trends and constant change of consumer behavior The textbook *Media and Internet Management* stays abreast of changes and covers this topic on a well founded and comprehensive basis It makes a valuable contribution to theory and practice in media management and is highly recommendable to media managers Christoph Mohn Chairman of the Supervisory Board Bertelsmann AG The world of media is full of challenges and dynamic conditions for its field The dynamic of this market is accelerated even more by new digital technologies and ongoing globalization This book is an absolute must have for everyone who wants to know more about the basics conditions and requirements of modern media management The analytical clearness and structure make this publication highly relevant for students but also for managers Urs Rohner Chairman of the Board of Directors Credit Suisse Group AG *Media Management* is a textbook but a very welcome newcomer for students and teachers as it fills a market gap for good educational material in this rapidly evolving field It is concise simple but not simplistic and contains a contemporary overview of concepts and tools for media managers Prof Dr Bozena I Mierzejewska Editor of *The International Journal on Media Management* Fordham University New York Summed up with his second edition Wirtz managed to strengthen the outstanding position of his publication *Media Management* His textbook shines because of its content analytical clearness and the high relevance for business practice without losing its academic background With the second edition this book has established its position in the field of media business as the leading standard reference book in Germany It is suitable for business students lectures as well as managers who can gain magnificent information from it Prof Dr Wolfgang Fritz Director of the Institute of Marketing Braunschweig University of Technology Germany Honorary Professor at the Institute of Business Administration University of Vienna Austria

The Power of Neurodiversity Thomas Armstrong, 2025-07-29 From a bestselling author and psychologist an exploration and celebration of neurodivergence completely revised with the most up to date research and insights From ADHD and dyslexia

to autism the number of diagnosis categories listed by the American Psychiatric Association has tripled in the last fifty years. With so many people affected it is time to revisit our perceptions of people with disabilities. Thomas Armstrong illuminates a new understanding of neuropsychological disorders. He argues that if they are a part of the natural diversity of the human brain they cannot simply be defined as illnesses. Armstrong explores the evolutionary advantages, special skills, and other positive dimensions of these conditions including autism, ADHD, dyslexia, schizophrenia, anxiety, intellectual disabilities, and mood disorders. With an emphasis on positive niche construction for each area, *The Power of Neurodiversity* is a manifesto as well as a keen look at disability as well as a must read for parents, teachers, and anyone who is looking to learn more about neurodivergence.

Case Study Methodology in Higher Education Baron, Annette, McNeal, Kelly, 2019-06-28. In higher education, case studies can be utilized to have students put themselves into problems faced by a protagonist and by doing so address academic or career-related issues. Working through these issues provides students with an opportunity to gain applied perspective and experiences. Professors in higher education who choose this method of teaching require navigational tools to ensure that students achieve stated learning objectives. *Case Study Methodology in Higher Education* is an essential research publication that focuses on the history and theories relating to case study methodology, including techniques for writing case studies and utilizing them in university settings to prepare students for real-life, career-related scenarios. This publication features a wide range of topics such as educational leadership, case writing, and teacher education. It is essential for educators, career professionals, higher education faculty, researchers, and students.

Digital Business Models Bernd W. Wirtz, 2019-04-02. The spread of the Internet into all areas of business activities has put a particular focus on business models. The digitalization of business processes is the driver of changes in company strategies and management practices alike. This textbook provides a structured and conceptual approach, allowing students and other readers to understand the commonalities and specifics of the respective business models. The book begins with an overview of the business model concept in general by presenting the development of business models, analyzing definitions of business models, and discussing the significance of the success of business model management. In turn, Chapter 2 offers insights into and explanations of the business model concept and provides the underlying approaches and ideas behind business models. Building on these foundations, Chapter 3 outlines the fundamental aspects of the digital economy. In the following chapters, the book examines various core models in the business-to-consumer (B2C) context. The chapters follow a 4 C approach that divides the digital B2C businesses into models focusing on content, commerce, context, and connection. Each chapter describes one of the four models and provides information on the respective business model types, the value chain, core assets, and competencies, as well as a case study. Based on the example of Google, Chapter 8 merges these approaches and describes the development of a hybrid digital business model. Chapter 9 is dedicated to business-to-business (B2B) digital business models. It shows how companies focus on business solutions such as online provision of sourcing, sales, supportive collaboration, and broker services. Chapter

10 shares insight into the innovation aspect of digital business models presenting structures and processes of digital business model innovation The book is rounded out by a comprehensive case study on Google Alphabet that combines all aspects of digital business models Conceived as a textbook for students in advanced undergraduate courses the book will also be useful for professionals and practitioners involved in business model innovation and applied researchers

Proceedings of the American Society for Engineering Education American Society for Engineering Education,1955

The Boston Medical and Surgical Journal ,1893 **Boston Medical and Surgical Journal** ,1893 **Encyclopedia of Development Methods** Andrzej Huczynski,2001 The core of this thoroughly revised book is a directory of more than 700 methods Each entry typically comprises an explanation a bibliography and cross references Other features include a review of different approaches to classifying the methods and two valuable appendices the first is to help practitioners analyse their methods the second providing details of relevant books journals and other information sources

American Accountant ,1928 **Proceedings** ,1951 **Automated Systems Based on Human Skill (Joint Design of Technology and Organisation)** D. Brandt,Thomas Martin,1996-12-16 These proceedings contain the papers presented at the 5th IFAC Symposium on Automated Systems Based on Human Skill held in Berlin Germany 26 28 September 1995 The symposium like previous ones in the series brought together researchers developers and users of complex human machine systems Discussions covered manufacturing process control aircraft and air traffic control and administrative processes with an emphasis on how to design such systems and integrate both developers and users into the design process The main issues addressed therefore were the joint engineering of production processes information technology and work organisation and the possibility that this may lead to the re definition of human operators in process automation
