race and politics While Shakespeare's work is recreated in diverse forms in theatres all over the world ballet is potentially one of the most international and inclusive forms of theatrical expression based in the fundamental expressive potential of the body Since it moved into the avant garde more than a century ago it has been in the forefront of invention and experiment in the theatrical arts and yet the hundreds of ballets which have been based on Shakespeare's work have received scant attention in Shakespearean scholarship and criticism David Fuller explores a wide range of Shakespeare's oeuvre as it has been recreated in this form with studies of ballets based on some of his most famous works including *The Taming of the Shrew* *A Midsummer Night's Dream* the *Sonnets* *Romeo and Juliet* *Hamlet* *Othello* *Macbeth* and *The Tempest* With analysis of productions from the 1940s to the present by British American and European choreographers it reads these as forms of creative criticism which reflect wider developments in society and in so doing show Shakespeare as perpetually contemporary
