Sample Book Insights 1 The term globalization has been used in both the popular and academic press to describe a process a condition a system a force and an age However these concepts have very different meanings and their indiscriminate usage leads to confusion 2 There are three concepts that need to be distinguished when discussing globality global imagination global imaginary and globalization

Global imagination is the growing consciousness of the world as a single whole Global imaginary refers to people's growing consciousness of the world as a single whole Globalization is the process of transforming our present social condition of conventional nationality into one of globality 3 Globalization is the process of growing global connectivity fueled by digital technologies However it would be foolish to deny that these technological innovations have played a crucial role in the current compression of world time and world space 4 In 2014 American journalist Matt Stopera lost his cell phone which contained thousands of private photos of an Asian man standing in front of an orange tree He received many tweets from Chinese people offering to help find the man and he became an overnight Internet celebrity in China Analyzing the Cultural Diversity of Consumers in the Global Marketplace Alcántara-Pilar, Juan Miguel, 2015-04-30 The key to any marketing strategy is finding a way to reach and appeal to the consumer In the case of a diverse consumer pool marketers must strive to direct their promotional efforts to appeal to a global customer base Analyzing the Cultural Diversity of Consumers in the Global Marketplace explores the strategies associated with promoting products and services to a culturally diverse target market Providing innovative solutions for global brands this publication is ideally designed for use by marketing professionals executives students as well as researchers Corporate Diplomacy Ulrich Steger, 2003-01-06 Based on a wealth of empirical studies and numerous case studies this book explains the strategic choices companies have to make in order to remain consistent with their business agenda as well as credible to their stakeholders *Globalism* Manfred B. Steger, 2002 *Globalism The New Market Ideology* rejects the notion that we find ourselves at the end of ideology and that democracy has won Instead Steger argues that the opening decade of the 21st century will constitute a teeming battlefield of clashing ideologies The chief protagonist is the dominant neoliberal market ideology Steger calls globalism After identifying and evaluating the five central claims of globalism including assertions that globalization is inevitable nobody is in charge of globalization and globalization benefits everyone Steger offers an overview of the counterclaims made by anti globalist forces Visit our website for sample chapters *Human Rights, Regionalism and the Dilemmas of Democracy in Africa* Lennart Wohlgemuth, Ebrima Sall, 2006 It has often been argued that the concept of human rights is an artefact of modern Western civilisation that human rights in the South are privileges conferred These approaches have taken little cognisance of the place accorded to the societal rights held in such esteem as complementary to individual rights in traditional African society In contrast this study argues that human rights in Africa are as much about the dignity of Africans as about the commitments of others towards them It argues for a critical defence of universal human rights within a multicultural framework From historical perspectives it illustrates how the slave trade and then colonialism undermined the traditional balance of individual and societal rights **Introducing Globalization Theories** Prof. Manfred B. Steger, 2025-03-11 Since the explosion of the buzzword globalization in academic and public discourse more than thirty years ago theoretical explorations of worldwide interconnectivities and mobilities have proliferated across major academic disciplines *Introducing Globalization Theories* is a
