**Getting What We Need Ourselves** Jennifer Jensen Wallach, 2019-06-01 Beginning with an examination of West African food traditions during the era of the transatlantic slave trade and ending with a discussion of black vegan activism in the twenty first century *Getting What We Need Ourselves How Food Has Shaped African American Life* tells a multi faceted food story that goes beyond the well known narrative of southern derived soul food as the predominant form of black food expression While this book considers the provenance and ongoing cultural resonance of emblematic foods such as greens and cornbread it also examines the experiences of African Americans who never embraced such foods or who rejected them in search of new tastes and new symbols that were less directly tied to the past of plantation slavery This book tells the story of generations of cooks and eaters who worked to create food habits that they variously considered sophisticated economical distinctly black all American ethical and healthful in the name of benefiting the black community Significantly it also chronicles the enduring struggle of impoverished eaters who worried far more about having enough to eat than about what particular food filled their plates Finally it considers the experiences of culinary laborers whether enslaved poorly paid domestic servants tireless entrepreneurs or food activists and intellectuals who used their knowledge and skills to feed and educate others making a lasting imprint on American food culture in the process Throughout African American history food has both been used as a tool of empowerment and wielded as a weapon Beginning during the era of slavery African American food habits have often served as a powerful means of cementing the bonds of community through the creation of celebratory and affirming shared rituals However the system of white supremacy has frequently used food or often the lack of it as a means to attempt to control or subdue the black community This study demonstrates that African American eaters who have worked to creative positive representations of black food practices have simultaneously had to confront an elaborate racist mythology about black culinary inferiority and difference Keeping these tensions in mind empty plates are as much a part of the history this book sets out to narrate as full ones and positive characterizations of black foodways are consistently put into dialogue with distorted representations created by outsiders Together these stories reveal a rich and complicated food history that defies simple stereotypes and generalizations

**Elijah Muhammad and Islam** Herbert Berg, 2009-03-01 Elijah Muhammad is arguably the most significant figure in the history of Islam in the United States Successor to W D Fard the founder of the Nation of Islam and a mentor to Malcolm X Elijah Muhammad led the Nation of Islam for over forty years In *Elijah Muhammad and Islam* Herbert Berg focuses on Elijah Muhammad s religiosity which is frequently brought into question as the authenticity of the Nation of Islam as truly Islamic remains hotly debated To better comprehend this powerful and controversial figure Berg contextualizes Elijah Muhammad and his religious approach within the larger Islamic tradition exploring his use of the Qur an his interpretation of Islam and his relationships with other Muslims Above all Berg seeks to understand not define or label Muhammad as a Muslim To do otherwise he argues is to misunderstand and distort the man
