Heartificial Intelligence John Havens, 2016-02-02 As we program machines to be more like humans how will they know what we value if we don't know ourselves The notion of robots gaining consciousness is beginning to become a reality but the future of human happiness is dependent on our ability to teach machines what we value the most today Featuring pragmatic solutions drawing on economics emerging technologies and positive psychology *Heartificial Intelligence* provides a road map to help readers embrace the present and better define their future Using fictional vignettes to help readers relate to larger concepts this book paints a vivid portrait of how our lives might look in either a dystopia of robot dominance or a utopia where we use technology to enhance our natural abilities and evolve into a long lived super intelligent and caring species

Virus Is a Language Chris Hables Gray, 2025-10-28 On how Generative AI and cults such as QAnon spread digitally and culturally follow the same rules as biological viruses Viruses can be biological digital or cultural All share basic viral properties that can be analyzed as a language with its own principles grammar and vocabulary which can help us achieve a better understanding of how they propagate and mutate This is crucial for controlling their impact on human society Generative AI the Covid 19 pandemic and QAnon are the case studies They are used to develop a full theory of Virus as a Language The goal is to foster a conversation on viruses in various parts of society And in some ways to learn to speak virus so as to better think through such concepts as percentages exponential growth infection immunization mutation agency and extinction The book will help concerned readers understand and navigate our strange complex world In particular it offers new insights on Generative AI COVID 19 and other pandemics to come Facebook QAnon and similar phenomena that impact almost everyone

From News to Talk Kimberly Meltzer, 2019-03-25 *From News to Talk* examines what journalists think about the movement toward often opinionated sometimes uncivil talk in news It provides an important intervention in debates about the future of news by investigating what journalists themselves perceive as the forces affecting this movement the effects of this shift on audiences and political culture and how the movement from news to talk affects their roles and authority in society Drawing on more than thirty interviews with journalists and other industry professionals and a decade of published journalistic materials Kimberly Meltzer uncovers the technological economic cultural and political forces affecting the movement toward opinion and commentary or talk in television online print and radio news From CNN's Brian Stelter to Fox Business Network's Maria Bartiromo the Washington Post's Paul Farhi and many other journalists from CBS USA Today POLITICO and HuffPost the interviewees are key figures in journalism Her analysis centers around several key case studies including the increase in opinionated talking heads on television and the ushering in of a new era of talk and entertainment programs the strategy by CNN to broaden its definition of news by adding non news programs and the bevy of star journalists starting their own self branded sites

Digital Media Metaphors Johan Farkas, Marcus Maloney, 2024-11-11 Bringing together leading scholars from media studies and digital sociology this edited volume provides a comprehensive

introduction to digital media metaphors unpacking their power and limitations Digital technologies have reshaped our way of life To grasp their dynamics and implications people often rely on metaphors to provide a shared frame of reference Scholars journalists tech companies and policymakers alike speak of digital clouds bubbles frontiers platforms trolls and rabbit holes Some of these metaphors distort the workings of the digital realm and neglect key consequences This collection structured in three parts explores metaphors across digital infrastructures content and users Within these parts each chapter examines a specific metaphor that has become near ubiquitous in public debate Doing so the book engages not only with the technological but also the social political and environmental implications of digital technologies and relations This unique collection will interest students and scholars of digital media and the broader fields of media and communication studies sociology and science and technology studies

Television by Stream Christina Adamou, Sotiris Petridis, 2023-05-22 Online television streaming has radically changed the ways in which programs are produced disseminated and watched While the market is largely globalized with some platforms streaming in multiple countries audiences are fragmented due to a large number of choices and often solitary viewing However streaming gives new life to old series and innovates conventions in genre narrative and characterization This edited collection is dedicated to the study of the streaming platforms and the future of television It includes a plethora of carefully organized and similarly structured chapters in order to provide in depth yet easily accessible readings of major changes in television Enriching a growing body of literature on the future of television essays thoroughly assess the effects new television media have on institutions audiences and content

Unbroken and Unbowed Jimmie R. Hawkins, 2022-02-22 In this compelling and informative volume Jimmie R Hawkins walks the reader through the many forms of Black protest in American history from pre colonial times through the George Floyd protests of 2020 Hawkins breaks American history into five sections with subsections highlighting how Black identity helped to shape protest during that period These protests include slave ship mutinies the abolitionist movement the different approaches to protest from Frederick Douglas W E B Dubois and Booker T Washington protest led by various Black institutions Black Lives Matter movements and protests of today s Black athletes musicians and intellectuals such as LeBron James Beyonce and Kendrick Lamar Hawkins also covers the backlash to these protests including the Jim Crow era the Red Summer of 1919 and modern day wars on the Black community in the form of the War on Drugs and voter suppression

Bad Ink Riki Wilchins, 2024-07-09 In BAD INK award winning trans activist Riki Wilchins definitively chronicles how and why the nation s newspaper of record became the leading national voice for attacking transgender kids Beginning in 2015 just as A G Sulzberger was taking over as Publisher the New York Times underwent a strange shift from its long time support for transgender rights overnight it became the nation s leading voice attacking transgender kids In nearly 70 000 words in dozens of articles it attacked their right to transition to medical care to sports participation even the very idea that they were transgender It was as Tom Scocca summed up in Popula a plain old fashioned newspaper crusade But the Times crusade

wasn't based on new reporting or fresh medical evidence but on talking points being promoted by white Christian nationalist organizations devoted to eradicating gay and transgender people. And it was timed just as MAGA politicians introduced over 1,000 bills in scores of states to outlaw every aspect of trans kids' lives. It was all apparently part of Sulzberger's new plan to remake that liberal rag so it could appeal to right-wing readers for the digital age. And unfortunately it worked. A much-needed book that only becomes more necessary by the day. Wilchins' *BAD INK* presents an unflinching, clear-eyed analysis of the role the Times has played in reversing the course of trans rights. Harron Walker, *VICE*. Combining close readings of the Times' robust factchecking, astute observation, and Wilchins' signature cutting prose, *BAD INK* is a must-read book for anyone who wants to understand how we got where we are today. TJ Billard, PhD, Assoc. Professor, Northwestern Univ., Director, Center for Applied Transgender Studies. I can't stop reading this book. *Bad Ink* is the clearest, most coherent dissection of the Times' decision to trade journalistic integrity for clicks at the expense of trans kids. Every reporter should be tasked with reading this book. Kate Sosin, *The 19th News*.

Algorithms to Live By by Brian Christian, Tom Griffiths, 2016-04-19. An exploration of how computer algorithms can be applied to our everyday lives to solve common decision-making problems and illuminate the workings of the human mind. What should we do or leave undone in a day or a lifetime? How much messiness should we accept? What balance of the new and familiar is the most fulfilling? These may seem like uniquely human quandaries, but they are not. Computers like us confront limited space and time, so computer scientists have been grappling with similar problems for decades. And the solutions they've found have much to teach us. In a dazzlingly interdisciplinary work, Brian Christian and Tom Griffiths show how algorithms developed for computers also untangle very human questions. They explain how to have better hunches and when to leave things to chance, how to deal with overwhelming choices, and how best to connect with others. From finding a spouse to finding a parking spot, from organizing one's inbox to peering into the future, *Algorithms to Live By* transforms the wisdom of computer science into strategies for human living.
