Copyright Removal Requests Google Transparency Report:

How the Internet Really Works Article 19,2020-12-11 An accessible comic book like illustrated introduction to how the internet works under the hood designed to give people a basic understanding of the technical aspects of the Internet that they need in order to advocate for digital rights The internet has profoundly changed interpersonal communication but most of us don't really understand how it works What enables information to travel across the internet Can we really be anonymous and private online Who controls the internet and why is that important And what's with all the cats How the *Internet Really Works* answers these questions and more Using clear language and whimsical illustrations the authors translate highly technical topics into accessible engaging prose that demystifies the world's most intricately linked computer network Alongside a feline guide named Catnip you'll learn about The How What Why of nodes packets and internet protocols Cryptographic techniques to ensure the secrecy and integrity of your data Censorship ways to monitor it and means for circumventing it Cybernetics algorithms and how computers make decisions Centralization of internet power its impact on democracy and how it hurts human rights Internet governance and ways to get involved This book is also a call to action laying out a roadmap for using your newfound knowledge to influence the evolution of digitally inclusive rights respecting internet laws and policies Whether you're a citizen concerned about staying safe online a civil servant seeking to address censorship an advocate addressing worldwide freedom of expression issues or simply someone with a cat-like curiosity about network infrastructure you will be delighted and enlightened by Catnip's felicitously fun guide to understanding how the internet really works

Automating Open Source Intelligence Robert Layton,Paul A Watters,2015-12-03 Algorithms for Automating Open Source Intelligence OSINT presents information on the gathering of information and extraction of actionable intelligence from openly available sources including news broadcasts public repositories and more recently social media As OSINT has applications in crime fighting state based intelligence and social research this book provides recent advances in text mining web crawling and other algorithms that have led to advances in methods that can largely automate this process The book is beneficial to both practitioners and academic researchers with discussions of the latest advances in applications a coherent set of methods and processes for automating OSINT and interdisciplinary perspectives on the key problems identified within each discipline Drawing upon years of practical experience and using numerous examples editors Robert Layton Paul Watters and a distinguished list of contributors discuss Evidence Accumulation Strategies for OSINT Named Entity Resolution in Social Media Analyzing Social Media Campaigns for Group Size Estimation Surveys and qualitative techniques in OSINT and Geospatial reasoning of open data Presents a coherent set of methods and processes for automating OSINT Focuses on algorithms and applications allowing the practitioner to get up and running quickly Includes fully developed case studies on the digital underground and predicting crime through OSINT Discusses the ethical considerations when using publicly available online data

Freedom of expression and the Internet Prof. Wolfgang

Benedek, Dr Matthias C. Kettmann, 2014-01-15 With the rise of the Internet the opportunities to express oneself have grown exponentially as have the challenges to freedom of expression From the Arab Spring to the global Occupy movement freedom of expression on the Internet has had a profound impact on the debates which shape our future At the same time an increasing number of states use the Internet to spy on journalists and citizens to prosecute and jail bloggers and to censor online information This book sets out to answer essential questions regarding the extent and limits of freedom of expression online It seeks to shed light on the often obscure landscape of what we are allowed to say online and how our ideas and the process of imparting and receiving information are protected It shows the large ambit of rights protected by freedom of expression including freedom of the media and the right to access information via the Internet It also highlights the importance of the standard setting monitoring and promotion activities of international and non governmental organisations with a chapter on relevant national practices that illustrates how different states deal with the challenge that the Internet has brought to ensuring freedom of expression for all As the importance of the Internet in our daily lives grows readers will find this book to be a valuable resource for understanding the rights and obligations of each actor on the Internet including states Internet companies and civil society

Trademarks and Social Media Danny Friedmann, 2015-09-25 Legal conflicts between trademark holders social media providers and internet users have become manifest in light of wide scale unauthorised use of the trademark logo on social media in recent decades Arguing for the protection of the trademark logo against unauthorised use in a commercial environment this book explores why protection enforcement should be made automatic A number of issues are discussed including the scalability of litigation on a case by case basis and whether safe harbour provisions for online service providers should be substituted for strict liability

The Digital Transformation of the Public Sphere Athina Karatzogianni, Dennis Nguyen, Elisa Serafinelli, 2016-12-17 Bringing together contributions from the fields of sociology media and cultural studies arts politics science and technology studies political communication theory and popular culture studies this volume engages both with theoretical debates and detailed empirical studies showcasing how the public sphere is transformed by digital media and in turn how this digital public sphere shapes and is shaped by debates surrounding crisis conflict migration and culture Case studies from Bulgaria Nigeria China Greece Italy Cyprus UK Mexico and India are discussed in detail

Assessing Internet Development in Brazil Brazilian Network Information Center, Regional Centre of Studies for the Development of the Information Society, UNESCO, 2019-12-20

The Global War for Internet Governance Laura DeNardis, 2014-01-14 A groundbreaking study of one of the most crucial yet least understood issues of the twenty first century the governance of the Internet and its content

Content is Not King Chinwendu Praise Akalonu, 2023 The internet has transformed access to information but it has also created challenges such as the spread of unwanted content To address this internet companies and governments have employed censorship practices particularly content removal However content removal poses a major threat to freedom of speech This study was designed to understand

the nature of government requests for content removal from Google Using data from Google Transparency report and Freedom House reports this research investigates the relationship between government political systems and freedom of speech Specifically it focuses on three Google products YouTube Web search and Blogger to demonstrate how government requests for content removal shed light on the state of democracy in 86 countries captured in the Google Transparency Report in 2020 This study contributes to the scientific inquiry into censorship issues and expands knowledge about the nature of content likely to be removed from the internet by the government It also makes significant a contribution to censorship research by being one of the first to use Google s Transparency Report for post publication censorship analysis Overall by exploring the relationship between government requests for content removal and freedom of speech this research seeks to advance our understanding of the complex challenges posed by censorship in the digital age and offers insight to improve the internet for everyone
