Slime Dynamics Ben Woodard,2012-09-28 Despite humanity s gradual ascent from clustered pools of it slime is more often than not relegated to a mere residue the trail of a verminous life form the trace of decomposition or an entertaining synthetic material thereby leaving its generative and mutative associations with life neatly removed from the human sphere of thought and existence Arguing that slime is a viable physical and metaphysical object necessary to produce a realist bio philosophy void of anthropocentricity this text explores naturephilosophie speculative realism and contemporary science hyperbolic representations of slime found in the weird texts of HP Lovecraft and Thomas Ligotti as well as survival horror films video games and graphic novels in order to present the dynamics of slime not only as the trace of life but as the darkly vitalistic substance of life **Zones of Control** Pat Harrigan,Matthew G.
