**Get More:** Joby Slay, 2020-01-01 One of the largest challenges facing youth sports today is the lack of sufficiently trained athletic coaches. Studies report that less than 1/3 of coaches have any training in sports skills, tactics, and motivational techniques. In his new book *Get More*, award-winning coach Joby Slay lays out the groundwork for equipping coaches in the fundamentals of their craft. The difficulty in our society in training effective motivational techniques, says Slay, is the complexity of the current motivational processes or educational platforms. They require a significant investment of time, energy, and money that the average youth coach just can't spare. Slay has put together a formula in *Get More* that is simple to teach and easy to apply for a winning motivational coaching style. The book organizes these winning principles so that coaches can apply his simple formula with any team. With his effective motivational formula, a player's talents and potential are empowered with new self-confidence to take initiative to do more, be more, get more, and to fuel their creativity, imagination, and passion, creating greater momentum and motivation. Whether a new coach or a 30-year veteran, the GET MORE formula will help every coach to improve their coaching acumen, resulting in their team achieving breakthrough performance results. *Teacher Leadership and Professional Development* Alex Alexandrou, Sue Swaffield, 2016-05-06

Interest in and knowledge of leadership and learning, separately and together, is an international and continuing phenomenon. This book adds to a somewhat under-researched aspect of the field. It focuses both on a particular form of leadership, teacher leadership, and on a particular form of learning, professional development. It considers the connection between teacher leadership and professional development, and the first chapter relates this connection to a Leadership for Learning conceptual framework developed through an international three-year project. The book's chapters explore teacher leadership and professional development from a number of perspectives, giving rise to three points of particular significance. Firstly, the chapters show that either by accident or design, there is a growing cadre of teacher leaders emerging from a multitude of professional development activities and initiatives. Secondly, a number of new conceptual frameworks are put forward alongside the adaptation and development of extant ones that add to the ever-increasing theorisation of educational leadership and professional development literature. Thirdly, the chapters provide evidence of the connections between leadership and learning as conceptualised in the Leadership for Learning framework. This book was originally published as a special issue of *Professional Development in Education*. *The Diary of a CEO* Steven Bartlett, 2023-08-29 A galvanizing playbook for success from Steven Bartlett, one of the world's most exciting entrepreneurs and the host of the No. 1 podcast *The Diary of a CEO*. This is a must-read for anyone dreaming of doing something audacious. Jay Shetty: Valuable lessons about the importance of following a different and unconventional path to power. Robert Greene: At the very heart of all the success and failure I've been exposed to, both my own entrepreneurial journey and through the thousands of interviews I've conducted on my chart-topping podcast, are a set of principles that ensure excellence. These fundamental laws underpinned my meteoric

rise and they will fuel yours too whether you want to build something great or become someone great The laws are rooted in psychology and behavioral science in my own experiences and those of the world s most successful entrepreneurs entertainers artists writers and athletes who I ve interviewed on my podcast These laws will stand the test of time and will help anyone master their life and unleash their potential no matter the field They are the secret sauce to success
