

Shui concluded:

"The quadrilaterals have four pairs of congruent corresponding angles, so the figures are similar."

What error did Shui make in her conclusion?

Choose 1 answer:

A A rigid transformation of quadrilateral $GHIJ$ would map it onto $KLMN$, so the quadrilaterals are congruent and similar.

B It's impossible to map quadrilateral $GHIJ$ onto quadrilateral $KLMN$ using only rigid transformations and dilations, so the figures are not similar.

C There is no error. This is a correct conclusion.

Lang, 2016-02-16 Employ cognitive theory in the classroom every day Research into how we learn has opened the door for utilizing cognitive theory to facilitate

better student learning But that s easier said than done Many books about cognitive theory introduce radical but impractical theories failing to make the connection to the classroom In Small Teaching James Lang presents a strategy for improving student learning with a series of modest but powerful changes that make a big difference many of which can be put into practice in a single class period These strategies are designed to bridge the chasm between primary research and the classroom environment in a way that can be implemented by any faculty in any discipline and even integrated into pre existing teaching techniques Learn for example How does one become good at retrieving knowledge from memory How does making predictions now help us learn in the future How do instructors instill fixed or growth mindsets in their students Each chapter introduces a basic concept in cognitive theory explains when and how it should be employed and provides firm examples of how the intervention has been or could be used in a variety of disciplines Small teaching techniques include brief classroom or online learning activities one time interventions and small modifications in course design or communication with students
