The Virginia Quarterly Review, 2014 *Useless Beauty* Ann Elias, 2015-10-05 The story of Australian art does not begin and end with landscape This book puts flowers front and centre because they have often been ignored in preference for more masculine themes Departing from where studies of single flower artists leave off *Useless Beauty* embraces the general topic of flowers in Australian art and shines new light on a slice of Australian art history that extends from 1880 to 1950 It is the first book of broad chronology to discuss Australian art through blossoms which it does by addressing stories of major figures including Hans Heysen Margaret Preston and Sidney Nolan as well as specific objects such as surreal flowers Aboriginal flowers and war flowers Whether modern or conservative the artists in this study shared an intellectual and emotional passion for flora This was true for men as well as women despite blossoms being a more traditionally feminine subject Through spectacular reproductions of historical and contemporary artworks drawn from collections in Australia the United States Britain and New Zealand *Useless Beauty* explores how flowers influenced the psyche governed rituals defined identity and brought a psychological dimension to the everyday The peak years for flower centrality in Australian art were between 1920 and 1940 when flowers were known as the apotheosis of useless beauty

Collecting Women Chantel M. Lavoie, 2009 This book addresses the place of women writers in anthologies and other literary collections in eighteenth century England It explores and contextualizes the ways in which two different kinds of printed material poetic miscellanies and biographical collections complemented one another in defining expectations about the woman writer Far more than the single authored text it was the collection in one form or another that invested poems and their authors with authority By attending to this fascinating cultural context Chantel Lavoie explores how women poets

were placed posthumously in the world of eighteenth century English letters Investigating the lives and works of four well known poets Katherine Philips Aphra Behn Anne Finch and Elizabeth Rowe Lavoie illuminates the way in which celebrated women were collected alongside their poetry the effect of collocation on individual reputations and the intersection between bibliography and biography as female poets themselves became curiosities In so doing *Collecting Women* contributes to the understanding of the intersection of cultural history canon formation and literary collecting in eighteenth century England
