#noprojects: A Culture of Continuous Value Evan Leybourn, Shane Hastie, 2018-07-18
Today success comes from building products people love creating loyal customers and serving the broader stakeholder community In this thoughtful exploration on the future of work the authors explore the past present and future of the project And why in today's fast changing hyper competitive world running a temporary endeavour is the wrong approach to building sustainable products and how noprojects is fundamentally changing the way companies work The metrics by which we have historically defined success are no longer applicable and we need to re examine the way value is delivered in the new economy This book starts from the premise that our goal is to create value for the customer for the organisation and for

society as a whole and shows how to empower and optimise our teams to achieve this The authors draw on modern management approaches to provide proven techniques and tools for producing and sustaining creative products that go beyond meeting requirements
