Timeless Love:

Lips Muska Dee, 101-01-01 This poetry collection offers a profound and lyrical exploration of human lips weaving together physical beauty emotional expression and symbolic meaning Beginning with poems that celebrate the sensual charm and aesthetic allure of lips their shape color and texture the collection soon deepens into a rich emotional journey Lips emerge not just as features of the body but as vessels of communication intimacy and identity Through whispered words and silent expressions they become powerful conduits of love longing and hidden truths As the poems progress they take on a more introspective tone exploring how lips shape our self expression and influence our relationships with the world With sensitivity and emotional depth each poem invites readers to reflect on the often overlooked significance of lips in shaping our human experience Blending vivid imagery with quiet insight this collection resonates as a meditation on beauty vulnerability and the quiet power of expression

The Passionate Mind Revisited Joel Kramer, Diana Alstad, 2013-07-30 The Passionate Mind Revisited takes readers on a liberating inner journey into the workings of their mind that can transform the way people look at themselves and the world This expanded inquiry reflects the authors own and the world s evolution since The Passionate Mind came out in 1974 The original book focusing on the individual is now extended to social and philosophical spheres and global challenges exploring how the world s life threatening dramas are largely a function of people s genetic and cultural conditioning worldviews beliefs and values Kramer and Alstad assert that humanity is on an evolutionary cusp requiring further awareness and conscious social evolution Worldviews can create rigid beliefs and narrow identities that are destructive in a world of global impact While acknowledging the fallibility of any mental construction the book offers an evolutionary worldview deemed more likely than traditional worldviews or scientific materialism In exploring what it is to be a human social animal The Passionate Mind Revisited offers fresh vantage points on life s core issues the nature of thought authority and belief pleasure and pain desire and fear identity love and care freedom power gender time meditation violence and evolution By demonstrating how to inwardly see and break through one s conditioning the authors delve deeply into the nature and processes of the mind including how subjectivity filters perception This approach to self inquiry can help free people from mechanical responses that develop from unexamined beliefs and habits Dysfunctional worldviews and their values inhibit the creative solutions much needed in a perilous world of runaway change This book through its discussion and methodology fosters curiosity and truth seeking Kramer and Alstad offer new insights on personal and global issues that can facilitate a necessary shift to conscious social evolution
